RE: Insufficient Filing Fees for Palouse River Basin Adjudication Claims

Dear Mr. Thompson,

The Idaho Department of Water Resources (IDWR) has reviewed the Palouse River Basin Adjudication Notices of Claim to a Water Right that you submitted for your client, the Board of Regents of University of Idaho.

Based on IDWR's calculations, insufficient filing fees were submitted for the claimed water uses. The filing fees associated with the submitted claims have been calculated and are described on the attached spread sheet. After accounting for the overlapping irrigated acres claimed (irrigated acres are only charged once), the required filing fees for the claims as filed totals \$6,050.90. Only \$3,280.00 was paid for the claims upon submittal, leaving a remaining balance of **\$2,770.90**. Also note that duplicate claims were filed for Water Right Claim No. 87-4064. Additionally, many of the claims filed differ significantly from the water right licenses they were based upon. If errors were made on the submitted claims, then an Amended Notice of Claim to a Water Right should be filed to correct those errors. If amended claims are filed, please ensure that they are submitted on single sided pages, as is required by the court.

Please provide the remaining portion of the required filing fees within 30 days. If IDWR does not receive the required fee, these claims will be returned to you and will not be recommended to the Court.

If you have any questions regarding this matter, please contact our adjudication staff at 208-762-2800.

Best Regards,

Evan W. Roda
Water Rights Supervisor
Northern Region
