Re claim: 87-10712

My grandparents moved into the old house, next to my current home, in December 1952. They developed the spring in 1953 that I now use. I was five years old at the time and would guess the spring was put into use late 1953. It has never been out of use. When I started building my house in August 1990 we changed the pump and spliced into the line to the old house which has been shut off.

If you have any other question please contact me.

A handwritten signature in cursive script that reads "Michael Franklin".
