Mr. Deese,

I need to make one correction. Below I said that if no action was taken, the right would be decreed with a season of use of 1/1 to 12/30. That is a typo. The actual current claimed season of use is 1/1 to 12/01

I apologize for the confusion.

Dear Timothy Deese,

On January 10, 2020, IDWR sent you notice that an amended claim was required before IDWR could recommend year round (1/1 to 12/31) season of use for your water right (attached). To date, it does not appear that a Motion to Amend claim 95-16913 has been received by IDWR or the court. I am e-mailing you just in case the letter we mailed didn't reach you. Please review the attached letter and respond by either contacting an IDWR office or submitting the Motion to Amend along with the amended claim to the CSRBA court by **February 27, 2020**, or your water right will be put back on track to be decreed with the 1/1 to 12/30 season of use originally claimed.

Respectfully,
