TERMS USED ON YOUR BILL**STATEMENT DATE:**

The date your bill was printed. Payments, charges, and adjustments processed after that date will appear on your next bill.

KWH CHARGE:

The amount of kilowatt hours used multiplied by the kWh rate. One kilowatt hour equals 1,000 watts used for one hour. For example: A 100-watt light bulb left on for 10 hours uses one kilowatt hour.

SERVICE AVAILABILITY CHARGE:

A monthly charge designed to pay a portion of the fixed costs of providing service regardless of energy used. These costs include transmission and distribution lines, substations, transformers and equipment, and other administration and general costs.

RATE:

The rate schedule for your account. Rate schedules are available at www.clearwaterpower.com/rates or by mail at your request.

PAYMENT DUE DATE:

Balances must be paid in full by the 20th of each month to avoid additional charges and/or disconnection.

LATE CHARGE:

Bills become delinquent after the 20th of each month. If the current monthly bill is not paid by the due date, a 1.5% late payment charge is assessed on the past due balance.

CPC created Helping Hands to assist households with unexpected emergencies. The program helps Members in need who have exhausted all other resources to pay. Helping Hands funds stay in our service area and are disbursed to qualified recipients by the Community Action Partnership. CPC does not retain any of the funds. Any donation amount is appreciated, even rounding your payment up to the nearest dollar. Every contribution makes a difference and contributions are tax deductible.
