RE: Palouse River Basin Adjudication (PRBA) Claim Number 87-10577 and 87-10632

RESPONSE DEADLINE: MARCH 16, 2020

Dear Claimant:

The Idaho Department of Water Resources (IDWR) is currently in the process of reviewing adjudication claims in your area. Initial review of your claims indicates several items that need to be addressed. They are as follows:

87-10577

Attached is a map of your parcel. Please show on this map where the well and places of use are located.

87-10632 – Violation of the Mandatory Permit Statute

A review of this claim indicates that the priority date claimed is in violation of the Mandatory Permit Statute for the water source and purpose of use claimed.

The permit system for establishing a water right became mandatory for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams). Your claim shows that your surface water usage began on March 31, 1977.

Please contact me to make arrangements to amend your claim and/or prepare a water right permit application. IDWR will not be able to recommend that the PRBA Court issue a decreed water right for your water use in the claims current form. I can be reached at (208) 762-2800 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda a. Werner
Water Resource Agent, Sr.
