CHRIS HOLMES,

I moved onto this farm in 1973.
This farm belonged to my mother's family.
The house on the property (which was
constructed around 1920) was replaced in
1970 with a double wide mobile home.

The well was drilled in 1940. ~~For~~
Prior to the well, water was piped down
from the draw ~~water~~ where a spring box
collected spring water and was piped down
to the farmstead.

There was probably a house prior to
the 1920's home because the barn (portions
of which still exist today) was constructed
to be constructed before 1900.

If you need more information, let me
know. I have the original purchase
deeds to this parcel if we need to
go that far.

I am the owner and resident of
this property.
