RE: Snake River Basin Adjudication (SRBA)
Water Right #36-39L

Dear Water Right Holder:

736-3277
ofc
As the result of a piece of returned mail sent by the SRBA District Court, I called Greg Evans yesterday regarding ownership of the water right referenced above. Greg told me you are the current owner of the property, and gave me your mailing address. I have enclosed the returned mail for you.

Greg's name is still on this water right. Before we can modify our records to reflect your ownership of the property and water right, we need Form 42-248/42-1409(6) completed and returned. I have enclosed this form for your use. A copy of your divorce decree showing your ownership of the property and water right can replace the warranty deed requirement.

Please call me toll-free at 1-800/451-4129 if you have any questions.

Sincerely,

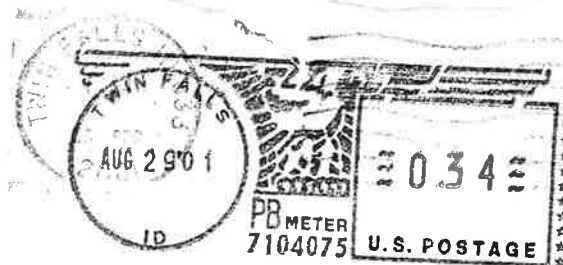

Sally Sherman
Technical Records Specialist

(Instead of filling in items 3 and 4 below you may include a copy of your proposed recommendation with the changes marked on the copy.)

3. Describe the portion of proposed recommendation with which you disagree:

ENTIRE recommendation

4. Describe the changes you wish to have made in the proposed recommendation:

*our total volume Consumptive use should be
6 shares of water*

5. Describe why you disagree with the proposed recommendation:

*Federal Decree of 1932 is binding and totally
over rules this recommendation. I bought this property
with 6 six shares of water, one of the main reasons for
purchasing lot. This recommendation will de-value my property.
Hagerman has a growing season from March 1 thru Nov., we
Date (4-23-92) can easily have a double crop in this area and
need this water and more. Melon, corn, tomatoes, pumpkins
have been grown on this property as a lively land. I also need
these 6 share for future development.*

- I. Issues identified by claimant: "Consumptive Use is 6 shares of water"
Federal Decree of 1932 is binding and over rules this
recommendation. Period of use reduced, prevents double
cropping.
- II. Reasons provided claimant for original recommendation: Water "Shares" do not relate to
consumptive use volume but to shares in the ditch company which
operates the system. Period of use recommended is the standard
period of use for this area of Idaho and applies to all adjudication
irrigation claims. It can only be extended by an order of
the Director of IDWR in Boise. It is related to the
frost-free growing season. The standard diversion rate
for small acreages is 0.03 cfs/acre. The decree of
1932 is based on beneficial use of water applied
with reasonable efficiency. The water decree must apply
to 8 other claimants.
- III. Additional information provided by claimant: He needs "6 shares" for future
development. This recommendation reduces the
value of his property.
- IV. Changes to be made in final recommendation (if any): None
He may file a notice of objection with the court
- V. Action taken (date): Change the notice of error flag and
reverify this claim
Change "R" record name + address to agree with the already
changed "A" record
