) ☒ LATE NOTICE OF CLAIM

) ☐ AMENDED NOTICE OF CLAIM

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a separate form for each late or amended Notice of Claim.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

☒ I have read *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996).

My name is Layne Osborne

My address is 966 Justice Grade
Hagerman, ID 83332

My phone number is: Work 837-4860 Home 837-6332

I am an attorney representing _____

My name is _____

My address is _____

My phone number is _____

MOTION TO FILE A LATE NOTICE OF CLAIM

A *Motion to File a Late Notice of Claim* will require a hearing before the Presiding Judge.

☒ I did not file a Notice of claim to the use of water in the SRBA because:

we were confused on the claims and the numbers
identifying them.

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

☐ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

I have attached:

- ☒ A fully completed Notice of Claim (available from IDWR).
- ☐ A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. § 42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.
- ☐ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on _____

n/a

(Insert Date and Time)

at the SRBA courthouse, 253 Third Avenue North, Twin Falls, Idaho.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A Motion to File an Amended Notice of Claim may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

- ☐ I must amend my Notice of Claim to the use of water in the SRBA because:

- ☐ I am providing legal and factual documentation to support my amended Notice of Claim. You must describe these documents and attach a readable copy.

I have attached:

- ☐ An amended Notice of Claim (available from IDWR).
- ☐ Payment of the following additional fees required by IDWR:

VERIFICATION (Must be completed)

State of IDAHO

County of Gooding

Layne Osborne, being first duly sworn, upon oath, deposes and says:
(Insert name of person filing form)

That I am the party/claimant filing this motion for late or amended claim (as listed on Page 2) as defined by I.C. §§ 42-1401A(1) and (7) or that I am the attorney for the party/claimant filing this motion for late or amended claim and that I have read this motion, know its contents, and believe that the statements are true to the best of my knowledge.

PARTIAL DECREE PURSUANT TO
I.R.C.P. 54(b) FOR

Water Right 36-000718

NAME AND ADDRESS: JUDY OSBORNE
LAYNE OSBORNE
966A JUSTICE GRADE
HAGERMAN, ID 83332

SOURCE: BILLINGSLEY CREEK TRIBUTARY: SNAKE RIVER

QUANTITY: 1.23 CFS

THE QUANTITY OF WATER UNDER THIS RIGHT FOR STOCKWATER USE
SHALL NOT EXCEED 13,000 GALLONS PER DAY.

THE APPROPRIATOR IS ENTITLED TO THE QUANTITY OF WATER
DESCRIBED FOR STOCKWATER PURPOSES AT A POINT OF MEASUREMENT
WHERE THE DELIVERY DITCH ENTERS THE PLACE OF USE DESCRIBED.

USE OF THIS RIGHT WITH RIGHTS 36-00072, 36-00073, AND
36-00074 IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF
1.29 CFS.

PRIORITY DATE: 06/26/1881

POINT OF DIVERSION: T07S R13E S11 NESENE Within Gooding County

PURPOSE AND PERIOD OF USE:	PURPOSE OF USE	PERIOD OF USE	QUANTITY
	Irrigation	02-15 TO 11-30	1.21 CFS
	Stockwater	01-01 TO 12-31	0.02 CFS

PLACE OF USE: Irrigation T07S R13E S11 NENE 23.5 Within Gooding County
23.5 Acres Total

Stockwater T07S R13E S11 NENE Within Gooding County

USE OF THIS RIGHT WITH RIGHTS 36-00072, 36-00073 AND 36-00074
IS LIMITED TO THE IRRIGATION OF A COMBINED TOTAL OF 23.5 ACRES
IN A SINGLE IRRIGATION SEASON.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT FOR
STOCKWATER USE IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL
USE.

DUE TO LEAKAGE FROM THE DITCH BACK INTO THE CREEK IN THE
200 FEET OF DITCH IMMEDIATELY BELOW THE DIVERSION STRUCTURE,
MEASUREMENT OF THIS RIGHT SHALL BE BASED ON THE AMOUNT FLOWING
IN THE DITCH 200 FEET BELOW THE POINT OF DIVERSION.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT
ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY
DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE
ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	SPECIAL MASTER'S REPORT AND
	)	RECOMMENDATIONS
Case No. 39576	)	
	)	FINDINGS OF FACT &
	)	CONCLUSIONS OF LAW
	)	
	)	FOR WATER RIGHTS: 36-00071B,
	)	36-00072, 36-00073, 36-00074, 36-15176,
	)	and 36-15184

I. PROCEDURAL BACKGROUND

A claim for water right 36-15176 was filed in 1988, and an amended claim for water right 36-15184 was filed in 1991. *Motions to File Late Claims* were filed by Layne and Judy Osborne (hereafter "Osborne") for claim numbers 36-00071B, 36-00072, and 36-00074, on January 15, 1999. SRBA Presiding Judge Barry Wood granted the *Motions* in ***Order Granting Motions to File Late Notices of Claim*** (April 20, 1999). After the Late Notices of Claim were allowed to proceed under numbers 36-00071B, 36-00072, and 36-00074, Osborne stipulated to **withdraw** claim number **36-15176**. The claim originally numbered **36-15184** was **renumbered** as **36-00073**. Osborne filed a *Motion to Amend Notice of Claim* for 36-00073. Therefore, Osborne implicitly agreed to **withdraw** claim number **36-15184** since it duplicates **36-00073**. The Idaho Department of Water Resources filed *Amended Director's Reports* for all subcases in September 1999, and filed *Corrected Recommendations* in February 2000. Osborne and IDWR submitted *Standard Forms 5* prior to trial.

II. FINDINGS OF FACT

A. AMENDED DIRECTOR'S REPORTS

Amended Director's Reports for 36-00071B, 36-00072, 36-00073, 36-00074, 36-15176 and 36-15184 were filed September 27, 1999. The *Amended Director's Reports* recommended 36-15176 as **withdrawn** and recommended 36-15184 be **disallowed** because the claim was "renumbered and recommended as water right number 36-00073."

Osborne did not file Objections to the *Amended Director's Reports* for 36-15176 or 36-15184. Osborne did file Objections to the *Amended Director's Reports* for 36-00071B, 36-00072, 36-00073, and 36-00074 on quantity, acreage and conveyance loss. On October 22, 1999, North Snake Ground Water District filed Responses to the *Amended Director's Reports* for 36-00071B, 36-00072, 36-00073, and 36-00074.

B. CORRECTED RECOMMENDATIONS

Corrected Recommendations were filed by IDWR February 18, 2000, which amended the previous *Amended Director's Reports*. On March 17, 2000, Osborne filed Objections to the *Corrected Recommendations* for 36-00071B, 36-00072, 36-00073, and 36-00074 raising issues of quantity and conveyance loss. North Snake Groundwater District did not file Objections or Responses. NSGWD discontinued its participation in these subcases as a result of declining to file Objections or Responses.

C. STANDARD FORMS 5

Prior to trial, Osborne and IDWR settled these subcases with *Standard Forms 5* signed by IDWR and counsel for Osborne. The *Standard Forms 5* included the phrase:

Delivery of this right is subject to the terms of the April 28, 2000, letter from David R. Tuthill, Jr., P.E., Chief, Adjudication Bureau, to Patrick D. Brown, P.C., addressing the measurement of water diverted into the John Bell Ditch.

However, the claimant and IDWR agreed to delete that phrase from the "Other Provisions Necessary for Definition or Administration" portion of these rights. Instead the claimant and IDWR assert the following information is necessary to define or administer these water rights:

Due to leakage from the ditch back into the creek in the 200 feet of ditch immediately below the diversion structure, measurement of this right shall be based on the amount flowing in the ditch 200 feet below the point of diversion.

Letter from Nick Spencer dated Aug. 2, 2000; Letter from Patrick D. Brown dated Aug. 1, 2000.

This Special Master concurs that language is necessary to properly define and administer these water rights.

III. CONCLUSIONS

A. CLAIMS NOT RECOMMENDED

1. 36-15184

The claim originally numbered 36-15184 was renumbered as 36-00073. Because claim 36-15184 was renumbered, IDWR recommended that no right be included in any decree for 36-15184. Osborne did not object to IDWR's recommendation for disallowance. Therefore, IT IS RECOMMENDED that water right claim 36-15184 **not be confirmed** in any partial or final decree.

2. 36-15176

Osborne agreed to withdraw claim number 36-15176. Therefore, IT IS RECOMMENDED that water right claim 36-15176 **not be confirmed** in any partial or final decree.

B. CLAIMS RECOMMENDED AS STIPULATED TO IN *STANDARD FORMS 5*

Claims number 36-00071B, 36-00072, 36-00073, and 36-00074 proceeded with IDWR filing *Amended Director's Reports* and *Corrected Recommendations*. North Snake Ground Water District filed Responses after the *Amended Director's Reports* were filed, but discontinued participation in these subcases after the *Corrected Recommendations* were filed. Osborne objected to the *Corrected Recommendations* filed in February 2000. The Osborne objections were resolved by *Standard Form*

5 settlement documents signed by Osborne and IDWR¹ and further explained in the letters from Patrick D. Brown and Nick Spencer. Therefore, IT IS RECOMMENDED that water rights 36-00071B, 36-00072, 36-00073, and 36-00074 be decreed as stipulated to in the *Standard Forms 5* and as set forth in the *Partial Decrees Pursuant to I.R.C.P. 54(b)*.

DATED August 9, 2000.

BRIGETTE BIL YEU, Special Master
Snake River Basin Adjudication

¹ Claim 36-00071B was split from 36-00071. IDWR reported that 36-00071A was decreed to Robert L. and Betty Jo Harney. IDWR further reported that the combined quantities for 36-00071A (Harney) and 36-00071B (Osborne) are 1.79 cfs which does not exceed the total quantity decreed for 36-00071 in *New International Mortgage Bank v. Idaho Power Company*, in Equity No. 1602 (S.D. Idaho, Mar 22, 1932) (correspondence from Nick Spencer dated May 5, 2000).

TWIN FALLS CO., IDAHO
FILED

NAME AND ADDRESS: JUDY OSBORNE
LAYNE OSBORNE
966A JUSTICE GRADE
HAGERMAN, ID 83332

SOURCE: BILLINGSLEY CREEK TRIBUTARY: SNAKE RIVER

QUANTITY: 1.23 CFS

THE QUANTITY OF WATER UNDER THIS RIGHT FOR STOCKWATER USE
SHALL NOT EXCEED 13,000 GALLONS PER DAY.

THE APPROPRIATOR IS ENTITLED TO THE QUANTITY OF WATER
DESCRIBED FOR STOCKWATER PURPOSES AT A POINT OF MEASUREMENT
WHERE THE DELIVERY DITCH ENTERS THE PLACE OF USE DESCRIBED.

USE OF THIS RIGHT WITH RIGHTS 36-00072, 36-00073, AND
36-00074 IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF
1.29 CFS.

PRIORITY DATE: 06/26/1881

POINT OF DIVERSION: T07S R13E S11 NESENE Within Gooding County

PURPOSE AND PERIOD OF USE:	PURPOSE OF USE	PERIOD OF USE	QUANTITY
	Irrigation	02-15 TO 11-30	1.21 CFS
	Stockwater	01-01 TO 12-31	0.02 CFS

PLACE OF USE: Irrigation Within Gooding County
T07S R13E S11 NENE 23.5
23.5 Acres Total

Stockwater Within Gooding County
T07S R13E S11 NENE

USE OF THIS RIGHT WITH RIGHTS 36-00072, 36-00073 AND 36-00074
IS LIMITED TO THE IRRIGATION OF A COMBINED TOTAL OF 23.5 ACRES
IN A SINGLE IRRIGATION SEASON.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT FOR
STOCKWATER USE IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL
USE.

DUE TO LEAKAGE FROM THE DITCH BACK INTO THE CREEK IN THE
200 FEET OF DITCH IMMEDIATELY BELOW THE DIVERSION STRUCTURE,
MEASUREMENT OF THIS RIGHT SHALL BE BASED ON THE AMOUNT FLOWING
IN THE DITCH 200 FEET BELOW THE POINT OF DIVERSION.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT
ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY
DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE
ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

RECOMMENDATION:

RE: Subcase Nos. 36-00071B, 36-00072, 36-00073, 36-15176 and 36-15184 in the names of Layne and Judy Osborne

Dear Pat:

The Idaho Department of Water Resources (IDWR) has studied the issue of conveyance loss in the John Bell ditch with respect to the above-referenced subcases. We have (1) reviewed the proposal that you faxed to this office on April 17, 2000, (2) discussed the issue with the Watermaster, Mr. Frank Irwin, (3) conducted a field inspection at the site in coordination with the Watermaster (conducted by Mr. Steve Clelland of our Southern Regional Office on April 21, 2000), (4) reviewed photographs of the John Bell ditch taken by Mr. Clelland, and (5) discussed this matter from a water distribution perspective with Mr. Norm Young, Administrator of the IDWR Water Management Division. As a result of this analysis, we offer the following determination:

1. IDWR is not prepared to increase the rate of flow recommended for ditch loss in the John Bell ditch above the 0.01 cfs already recommended. This amount, which is computed as the pro-rata share of ditch loss attributable to the Osbornes' water rights, should be sufficient to convey their water rights for 600 feet in a ditch that has reasonable losses.

2. We have determined that the reason for high losses in the ditch is poor ditch construction resulting in high leakage back to Billingsley Creek. On one hand, this leakage amount should not be added to the water rights. On the other hand, such losses are not uncommon in ditches situated in rocky areas such as found in the John Bell ditch.

3. The historic technique used by the Watermaster to account for the leakage in the John Bell ditch back to Billingsley Creek has been for the Watermaster to estimate the amount of such loss and to divert an additional amount into the ditch to compensate for

Patrick D. Brown

Page 2

April 28, 2000

this loss. To the extent that other waterusers, both junior and senior, are not injured by this approach, IDWR condones the approach.

Thus, that portion of the total quantity diverted at the headgate which leaks back into Billingsley Creek is in effect treated as if it had not been diverted, and sufficient water is diverted to ensure that the full quantity of all rights, including conveyance loss, is delivered into the ditch below where the leakage occurs. IDWR believes this historic practice can be continued unless and until it can be shown that it is causing injury to other waterusers.

If another wateruser is being injured by this approach, then the Watermaster must cease this technique. Should that occur, the John Bell ditch waterusers could either construct a measuring device located directly below the point where leakage to Billingsley Creek is direct and immediate (at a point located about 200 feet down the ditch), or the waterusers could improve the ditch or pipe the flows through the high leakage areas.

This letter is provided in an attempt to provide Mr. and Mrs. Osborne with confidence that their water rights as recommended are sufficient to provide for their water uses. IDWR believes that ample flows have been recommended for their water rights. Please advise if you have concerns regarding this approach.

Sincerely,

David R. Tuthill, Jr., P.E.
Chief, Adjudication Bureau

Dear I.D.W.R.

To whom it may concern Nick Spencer

I am requesting the Woodhead conveyance loss Quantity and how you figured it.

I have requested it several times over the phone to Nick Spencer and his helpers. Roxanne and Nick showed me how it was done using the Worstell chart and the Hamerly math but just showed the method they used but not the actual figures. I am requesting the actual figures. Nick knows what I am asking for.

Sincerely

Lynne Osborne

RE:

CONVEYANCE LOSS

I called Mr. Erwin to ask about the conveyance loss measurement he made on the John Bell Ditch for Layne Osborne. He told me the rectangular weir was made by Osborne and Lynn Babington and consisted of a metal plate attached to a sheet of plywood. Mr. Erwin thought the weir was built quite well and served the purpose of measuring water in the ditch.

I asked about the large loss for such a short, flat ditch. He told me he was surprised at the large amount measured for conveyance loss, 0.60 cfs but he found a reasonable explanation for the measurement. He described the upper end of the ditch as very leaky and constructed of large rocks instead of smaller material, which would seal up. He said he could see the water flowing back into the main creek from the ditch. He believes the only way to stop the loss of water at this small stretch of ditch would be to line the ditch or to pipe it. This bank is built into Billingsley Creek and cannot be easily reconstructed of finer material without crowding the flow area of either the creek or the ditch.

He told me he is trying to locate his notes of the measurement and he will gladly forward a copy to me when he finds them.

Jones, Doug

Subject: 36-00071B, 36-00072, 36-00073, 36-00074
Entry Type: Phone call
Contact: Osborne, Layne, Osborne, Judy

Start: Mon 11/15/99 3:00 PM
End: Mon 11/15/99 4:00 PM
Duration: 1 hour

Appointment was made the previous week with notice to Steve Clelland and Nick Spencer. The meeting commenced a few minutes after 3 PM.

Osborne asked for the most recent GIS map for his property - It isn't on the Basin36 master shapefile. Steve's laptop computer, which had the shapefile, was not available. The best I could provide was a scanned copy of the field note map Steve developed.

Osborne presented his opinion that IDWR's recommendation cheapens or totally invalidates his spring water rights, since IDWR states that his Bell Ditch right can be used on any of the land also covered by spring water. I explained the flexibility that our recommendation provides to him and that in the future if he feels that someone has injured his water right(s) he can pursue a call or civil action.

He said that he wanted to specify acres for each spring. I explained that the claim and the historical usage was to combine water from the sources into a common system. IDWR is responsible to recommend usage as of 1987. I also explained that information came to light just as the amended recommendations were submitted that indicates that some of the area above the Bell Ditch was not developed in 1972 that was recommended. Explained further that development and changes after 1987 that would require a transfer could not be encoded in these recommendations.

Osborne asked if he could sell a portion of the land with only one source on it. I explained how a land transaction would have to be explicit on reservation or assignment of water. I also explained that consolidating water onto fewer acres is not acceptable beyond a reasonable duty of water. Transfers could be required depending on circumstances.

The Osbornes gave me a legal description of a parcel and a copy of a CFSA map of the property, photo date unknown.

They indicated they are looking for 26 acres and 2"/ac of water. They take exception to the width of the ditch on the layout and the area connecting the orchard and the 5.4 acres drafted on the field map as out.

RECOMMENDATIONS

I showed him some old ASCS photos I scanned to my computer, all the photos show the POU above the John Bell Ditch as NOT irrigated prior to 1972 when the sprinkler system was added by Mrs. Anderson. I told him I could not change my recommendation at this point but this info would be considered if I am to reconsider a future recommendation. I stressed that I told him this for his information and to let him know it exists.

SRBA FIELD EXAM REPORT

1

SRBA CLAIM: A36-00071B, A36-00072, A36-00073 & A36-00074

EXAM DATE: SEPTEMBER 20, 1999

PREVIOUS EXAM: MARCH 12, 1991

IDWR AGENT: STEVE CLELLAND

ACCOMPANIED BY CLAIMANT: LAYNE OSBORNE

PURPOSE: This examination was made to investigate the amendment and late claims filed by Layne & Judy Osborne.

OBSERVATIONS & FINDINGS: I met with Layne Osborne at his home on 9/20/99 just after 2 PM to begin the examination. This was not expected to be a fully detailed exam since I have visited the site before; rather this was an update to show the changes made since the last exam.

I told him he needs to show me why he claimed the uses claimed for each spring source used and we began at Spring #1. He showed me the site where the spring rises and we walked the natural channel down to where it joins the John Bell Ditch. He pointed to the place on the small stream where he dams and diverts the flow into pipelines to run out onto his pasture below or west of the John Bell Ditch. I asked Layne if he thought the actual irrigated acreage under this small flow was 5 acres or less. We discussed the rate per acre issue as it has been developed in the Hagerman Valley; 1"/acre for gravity or more. He agreed to two acres for the 5 inches of decreed water from this source.

We returned to the house area and viewed the pump and pond system north of the house. It appears to be unchanged from my previous exam in 1991, however, Layne indicates he has changed the pump sizes since he has taken ownership of the property. He showed me Spring #3 which is on the east side of the pond as I found in 1991. He described various pipelines and water flows as we walked around the area east of the house and on up to the site below the road. He led me to a spring site below the road but above the site known as Spring #3. He told me he referred to this small spring as part of Spring #3 because it is below the road. It does not appear to be part of Spring #3. Spring #3 was very separate and unique flow to the pond. While the many seeps and springs may be somewhat related it appears this small piped spring is neither #2 nor #3 and we referred to this in our conversation as "upper #3". This Upper #3 Spring is piped to the house area and is used to provide some irrigation of the yard areas. It is piped under the sidewalks and to a drinking fountain and excess flows to the pond. I took some pictures of this site to show the various pipelines and the area of Upper #3.

We walked down the driveway and he showed me how he uses the overflow from Spring #2 to irrigate part of the pasture just below the road, Justice Grade. This small flow is run onto the pasture but the main irrigation source is from the sprinkler system as pumped up from the John Bell Ditch. Estimate less than 1 acre is irrigated with this flow and it is only a supplemental use.

We then went to the site of Spring #2 and observed the pipelines running from the diversion boxes. Due to brush and poison ivy it was not possible to get to the exact point of diversion but it is the same location as I observed in 1991 and no disagreement exists to the location of Spring #2. This spring is piped to the house for domestic uses, which includes the culinary, heat pump, stockwater taps and some yard irrigation. Some of the overflow from the collection box flows to the pasture for gravity irrigation as described above. Overflow after the water is diverted to the house system is dumped into the pond and pumped into the sprinkler system.

SUMMARY & RECOMMENDATIONS:

During my previous exam and review of these rights with Anita Anderson and Layne Osborne on 4/9/91 (See memo in CVR page 2, A36-00073), the water from the John Bell Ditch was pumped up to the pond and all irrigation water was distributed through a common sprinkler system, installed in 1972. Sometime after the 1992 Director's Report for Basin 36, Layne Osborne altered the irrigation system. He now irrigates the north end of the place of use (POU) from the pond using water from #2 and #3. A pump in the John Bell Ditch irrigates the south end of the POU. Since the system was operated as one POU prior to 1987 the recommended POU will reflect that system. All the previous review notes are contained in the file now labeled A36-00073.

RATE PER ACRE: I reviewed the recommendations made for Woodhead claims (36-00111B & 36-00112B) and the final FIR duty of water is 0.037 cfs/ac. While these lands are not identical in soil types they are very close in proximity, < 1/4 mile apart. This is comparable to other rates currently being allowed in the valley for the gravity rate of flow. It is used to base the flow rates for the rights reviewed herein.

SRBA CLAIM 36-00071B (John Bell Ditch)

IRRIGATION: 22.2 acre POU, limited to 22.2 when combined with other rights below. Flow rate = 0.82 cfs, limited to 0.90 cfs when combined with other rights below.

STOCKWATER: Recommended INSTREAM USE 0.02 CFS (per BWI#12).
TOTAL QUANTITY:

SRBA CLAIM 36-00072 (Spring #1)

IRRIGATION: 22.2 acre POU, limited to 22.2 ac. when combined with other rights below. Limited to 2.7 acres w/in PPU. (0.10 cfs/0.037 cfs per ac. = 2.7 ac.) Flow rate = 0.10 cfs w/ combined limits, see below.

STOCKWATER: Recommended INSTREAM USE 0.02 CFS (per BWI#12).
TOTAL QUANTITY: 0.10 cfs

SRBA CLAIM 36-00073 (Spring #2)

IRRIGATION: 22.2 acre POU, limited to 22.2 when combined with other rights below. Limited to 5.4 acres w/in PPU. (0.20 cfs/0.037 cfs per ac. = 5.4 ac.) Flow rate = 0.20 cfs w/ combined limits, see below.

DOMESTIC: 0.04 CFS; 1 HOME
STOCKWATER: Recommended 0.04 CFS.
TOTAL QUANTITY: 0.20 CFS

SRBA CLAIM 36-00074 (Spring #3)

IRRIGATION: 22.2 acre POU, limited to 22.2 when combined with other rights below. Limited to 10.8 acres w/in PPU. (0.40 cfs/0.037 cfs per ac. = 10.8 ac.) Flow rate = 0.40 cfs w/ combined limits, see below.

DOMESTIC: 0.04 CFS; 1 HOME
STOCKWATER: Recommended 0.04 CFS.
TOTAL QUANTITY: 0.40 CFS

COMBINED USE LIMITS

Combined use limits will apply to the POU and flow rates for these rights. Total POU is limited to a 22.2 acre PPU. Each right is further limited to an annual acreage based on the FIR allowed for these rights.

Combined flow rates based on these uses:

0.82 cfs irrigation (per Woodhead FIR)
0.04 cfs domestic (per 1 home standard)
0.04 cfs stockwater (per 100+ head cattle, non-dairy)
====

0.90 CFS COMBINED TOTAL FLOW RATE ALL RIGHTS.

Final recommendations will be described in the database.

BC - 71B - \$50 \$50
 #1 - 72 - \$50 + \$10 \$60
 #3 - 74 - \$50 + \$40 \$90
