Dear Mr. Howard:

Pursuant to a recent request from Kelly Kast, I have enclosed a copy of proof reports of Snake River Basin Adjudication records A36-00085C and 36-00085C. These records are for water out of Billingsley Creek, delivered through the Buckeye Ditch.

Record A36-00085C is the claim that you filed with our department as part of the Snake River Basin Adjudication. Record 36-00085C is the recommendation our department has made to the Snake River Basin Adjudication court. This recommendation will serve as the basis for how your water right will be decreed by the court.

I have highlighted various areas of the attached reports for your reference. The flow rates are given in CFS (Cubic Feet per Second). One Idaho Miner's Inch of water is equal to 0.02 (two one hundredths) CFS of water.

If you have any questions, or if we can be of any assistance, feel free to contact this office at your convenience.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Corey Skinner'.

su

Due to the late filing of this claim and the need for a quick review, no CVR was run for this claim since it was just filed. Based on past field exams of parcels surrounding this pasture, this land is irrigated. Confirmed by NAPP photo # 419-59, AA 69 SE.

I believe this is the correct water right based on the POW query & the deed listing Florence Parrott as previous owner.
