87-11403 Memo
5/7/2020

On May 5th, 2020 I spoke with John Taylor in regards to 87-11403. My initial questions were about the POD(s). He stated that there are two sources that he is using water from.

The first source is domestic use from a well for his home. The second source is a spring located on the southeast portion of the property, which was used in the past for domestic, stockwater and irrigation use. Currently the spring is being used for stockwater and irrigation. They began using the well and spring when they purchased the property in the early 1990's. The spring's use violated the mandatory permitting requirements for surface water. I told Mr. Taylor this, and mailed him an Application for Permit and instructions.

I informed Mr. Taylor that for his claim I can recommend domestic use from the well.
