RE: SRBA Claim

Dear Claimant:

Please find enclosed your claim which you recently submitted to our office. I am returning it pursuant to Rule 10,4 of the Department's Adjudications Rules and Regulations.

I am returning this claim to you since the filing fee was not submitted with the claim and reviewing the claim it appears that several essential items are not completed.

It appears from your attached documents you may have a portion of one or more of the decreed water rights circled in purple on the enclosed sheet. I believe you need to do more research to determine what your water right consists of and submit another claim or claims. Please find enclosed another claim form with instructions. Please read the instructions carefully and resubmit a claim for your water use. If you need further assistance feel free to contact our office.

Please return the corrected claim as soon as possible to avoid the deadline. If we receive your return claim within 30 days of the date of this letter it will be considered timely; however, if after 30 days it will be considered late and subject to an additional late charge.

Sincerely

Allen Merritt
Water Rights Supervisor

This claim is a change in nature of use. All other portions of parent right 36-00103 are for irrigation season only w/ an irrigation analysis allowable diversion rate of 0.06 cfs. Using the similar areas as a basis for for determining a flow rate for the aesthetics, 0.06 is appropriate, with a conveyance loss of 0.01 cfs. HHT 8/5/92

Because of the change in nature of use from irrigation to aesthetics, the diversion rate recommended is based on the diversion rates analyzed and recommended on other portions of 36-00103 (see 36-00103 B and 36-00103 C). Additionally, all other portions are for irrigation season only, therefore no evidence or support that the right has been used on a year-round basis and this right is recommended for irrigation season only.

RE:

- I called Mr. Jensen & discussed the locations of some of these smaller properties. Then I ask about methods of diversion of the water for A36-10316.
- In the past it has been by a pipe in the Bank.
 - WR claim A36-00065A still uses this diversion method.

We discussed the unrecorded transfer of the decree 36-00103. I explained I needed some tracking evidence for A36-10316 + A36-00103C. We discussed what might work & who to contact. Mr. Jensen will provide more information at later date.
