Evan & Susy,

Attached a letter from George Schaeffer regarding the domestic use of water under 95-17508. This matter is scheduled for a status conference tomorrow, I suspect it won't be possible to get anything filed with court before then. I assume that the matter will just be continued.

Let me know if there is anything I should do.

Thanks,
Bob

Re: Objection to Recommendation for 95-17508

Dear Mr. Roda:

Our belief is that the recommendation for the domestic use under 95-17508 should be based on Part A of the domestic definition instead of Part B. The facilities for this use were constructed by the previous owners, Ty and Jackie Cruse. It is our understanding that the cabins and eating facility were built for the domestic use of Cruse family members and were never used for any commercial activities.

If you have the need for any other information please contacts Bob Haynes at 208 660-4861. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "George Schaeffer".

George Schaeffer,
Manager Schaeffer Land and Timber LLC
