Last summer I attended a meeting sponsored by the Idaho Department of Water Resources. The representatives talked about licensing existing water rights.

I am the owner of Idaho Water Right 96-9196. I am also the owner of an American Tree Farm; a landowner program under the Idaho Department of Lands. As such, my water rights are very important to me.

Enclosed is a letter to your department dated February 21st, 2014 in which I requested the water right be placed solely in my name from the previous joint ownership with Kari Clark. The request granted is reflected in a copy of the current status of this water right; previously my father's water right dating back to 04-01-1957.

What I am asking with this correspondence is clarification as to how to proceed in obtaining a license for my existing water right. After the meeting last summer, I felt that there were more questions than answers as to how to proceed. Do you have a directive that addresses the step-by-step procedure to accomplish this licensing? That would be most helpful.

Thank you,

Mary E. Pandrea

Please note that Bonner County has changed my address from 4687 Upper Pack River Rd to reflect their up-dating to **161 Tiger Lily Lane**. It is still the same physical address.

I acquired this water right on September 17, 2004. It had previously been my father's, and has a priority date of 04-01-1957 under the name Harry F. Clark and was under Number 96-2250.

In a recent Court Action, my property is now partitioned from Kari A. Clark. Since she lives in Oregon, she is no longer involved in my American Tree Farm under the Idaho Department of Lands.

I am continuing with my American Tree Farm and continue to plant seedlings; therefore, the need for irrigation continues.

If you have any questions, or if you need any further documentation, please let me know.

Thank you,

Mary E. Pandrea
