Re: Notice of Claim to a water right acquired under State law for domestic and/or stockwater purposes where daily use is less than 13,000 gallons per day – Horse Flat Grazing Allotment.

To Whom it May Concern,

Enclosed please find the forms and documents for our filing of Stockwater claims on our Bureau of Land Management Grazing Allotment #ID00095 – Horse Flat Grazing Allotment.

Over the past year we have asked the Bureau of Land Management (BLM) for access to the archive backfiles of our permit. The end result was that they denied us access to and denied to provide information regarding the initial grazing permit. Because the backfile is under previous owners C.R. Edwards/Edwards & Son and Melvin & Inez Dotson - whom were all related by blood and marriage – the BLM denied our request to view the file on the basis that it may have personal information such as banking information, social security numbers or other personal information. Then BLM said that we would need a FOIA request in order to obtain any specific document at an unknown cost. We were also told that we would not be able to view any documents in the archive files because we were not 'personal representatives' of the former owners. Nor would they offer what the original permit file number was nor when it was originally signed and dated.

So due to BLM not allowing us access or providing information of the archived file and not providing us with the date of the original permit we are basing our claim to a priority date of 12/28/1896 upon the following documentation obtained from the Dotson Estate, U.S. Government Land Office Records and geneology records:

Enclosed is a copy of correspondence that was written to the BLM Advisory Board by C.R. Edwards in 1955 in response to a range meeting that was held July 27, 1955 in Cambridge, Idaho and conducted by BLM representative Donald Kobelin and Glen Fulcher, BLM range manager. In C.R. (Charles Roy) Edwards' letter he states in the first paragraph *"This is for the Taylor Land which we have used continuously for* ***sixty years*** *on exactly the same lands and have never missed a year of use and until recent years it, of course, was used by C.R. Edwards alone and in recent years the permits have been to Edwards & Son."* Sixty years subtracted from the date of his letter (1955) would make the date of grazing the lands in the year of 1895 or 1896. His father, David G. Edwards, homesteaded the land when he moved from Wisconsin to Cambridge, Idaho in 1895 or in 1896. This was before the Taylor Grazing Act.

Instrument #87392 – 11/5/1962 Warranty Deed between Harriet V. Edwards, a widow, and Melvin Dotson and Inez Dotson, husband and wife. (Inez Dotson was Harriet V. and Charles R. Edwards' daughter)

Instrument #220875 – 8/28/2012 Warranty Deed between the Personal Representative of the Estate of Melvin and Inez Dotson, deceased, and Keith and Karen Hood, husband and wife.

We believe that we have provided the necessary information for the priority date of our stockwater claim on the grazing allotment based upon the documentation above.

Thank you for your consideration of our claim.
Sincerely,

Keith and Karen Hood

Advisory Board
Owyhee Grazing District No. 1
c/o Bureau of Land Management
Boise, Idaho

Gentlemen:

We are asking you to reconsider the ruling made July 27, 1955, at Cambridge. Our permit was issued on our priority right of use. This is the permit issued to C. R. Edwards. This is for the Taylor land which we have used continuously for sixty years on exactly the same lands and have never missed a year of use and until recent years it, of course, was used by C. R. Edwards alone and in recent years the permits have been to Edwards & Son.

At the meeting August 1, it was the opinion that I got part of it on outside deeded land which it was not. Buhl, Hathorn and myself just pooled our outside deeded land to make enough land to handle what we were allotted. We have had permit for 250 head, from the first and for several years. In three or four years we were cut to 240 head and about two years ago were cut to 220 head. We are asking the Board to allow us 200 head from April 1 to June 1. The range is capable of handling that much stock. We feel like our priority right has been taken away from us and given to other parties which have no land within three miles of the Taylor land and no outside deeded land at all. We have 840 acres surrounded by the Taylor land and I have spent all of my life right here. The other parties cannot claim under any user with priority right on the Taylor land.

We will be ready to appear before the Board at its next meeting to prove the statements in this letter. We do not believe that we were given a fair hearing at the Cambridge meeting and that the decision of the Ranger Manager, Mr. Fulcher, was made without regard to the facts.

Please let us know when we may a pear before your Board to substantiate our position.

Very truly yours,

EDWARDS & SON

This decree provides, among other things, as follows:

As used in this decree the high water period shall include all that portion of the irrigation season when the river and its tributaries discharge sufficient water to supply all the allotments herein decreed on the basis of five-eighths (5/8) of an inch to the acre and the low water period shall consist of all that portion of the irrigation season when the discharge of the river and its tributaries is insufficient to supply the last named amount of water, and the foregoing allotments are made upon the basis of five-eighths (5/8) of an inch per acre, or its equivalent in irrigation heads, during the low water period, which is the maximum duty of water for said lands from said river and its tributaries, and whenever the commissioner, or other officer charged with the execution of this decree, finds the water in said river insufficient to supply the allotments as heretofore made on the basis of five-eighths (5/8) of an inch per acre, measured at the various diversion points, then and in that event the last appropriator in point of time shall be denied the use of said water.
