Dear Mr. Neibaur,

Enclosed you will find the standard forms required by the SRBA Court to change the seasons of use on the referenced water rights. Each "Standard Form 5" corrects the single water right shown as the Subcase No. on the document.

Please read and sign the documents, remembering to initial the attachments. William Neibaur will need to sign the document for 36-07490, unless you are authorized to do so by him. (In that case, please supply a copy of the Power of Attorney or other document that evidences this authorization.)

Return the documents in the enclosed, addressed, envelope; we will complete the process by filing the documents with the SRBA Court. Please feel free to contact me if there are any questions.

Sincerely,

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Dear Mr. Neibaur:

The purpose of this letter is to advise you that I have received your objections to our recommendations for the above-referenced water rights, and I have made distribution of the objections to the following entities as per standard requirements: SRBA Court (originals), IDWR Document Repository, Office of the Attorney General, and United States Department of Justice.

I discussed the issues related to your objections with our SRBA Attorney assigned to Basin 36, Mr. Nick Spencer, and he concurs in the solution that we discussed whereby under the circumstances in these cases IDWR will agree to modification of the irrigation seasons to result in seasons of 3/15 to 11/15. The Senior Agent who will be working on this matter with you is Ms. Roxanne Brown. She will initiate our preparation "Standard Form 5" agreements soon, and will contact you accordingly.

Please advise if you have any questions in this matter.

Sincerely,

II. STATEMENT OF THE RESPONSE

8. ☒ Period of Year: I respond to the objection concerning the period of year when water is used or is necessary for the purpose stated.
10. ☒ Consumptive Use: I respond to the objection concerning the annual volume of consumptive use.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 8, and all allegations of the objection regarding this item, IDWR responds as follows: Idaho Code Sec. 42-1411(2)(g) requires the director to determine the period of use of each water right acquired under state law that is recommended in the director's report. IDWR's irrigation season of use standards have evolved over time as better technical information has become available. A necessary consequence of this is that, depending on when a particular license was issued, water rights in the same area have been licensed inconsistently, some licenses being issued with different lengths of season listed and some being issued with no season of use listed. To remedy this problem IDWR has developed irrigation season of use standards for various climatic areas throughout the state based on a 75% chance of a 24 degree

fahrenheit frost. The period of the year during which this water right may be used is consistent with the standard irrigation season of use for the area in which the place of use of this water right is located. The director's report does not prohibit pre-season or post-season irrigation; subject to the conditions set forth in general provision 12b of the director's report, water may be used for irrigation outside the standard season of use.

In response to Statement of the Objection item 10 and all allegations of the objection regarding this item, IDWR responds as follows: The license upon which the claimant's claim is based does not set an annual volume of consumptive use for this water right. Idaho Code Sec. 42-1411(2)(i) requires the director to determine the annual volume of consumptive use for each water right acquired under state law and recommended in the director's report. IDWR has developed uniform standards of consumptive use for various climatic areas throughout the state, based upon the definition of consumptive use contained in Idaho Code Sec. 42-1401A(2), which is the maximum volume of water consumed by "the most water consumptive crop that can be grown in the area during the period of year when water is used for irrigation." The consumptive use recommended for this water right is based upon the maximum volume of water consumed by the most water consumptive crop (pasture) that can be grown in the area during the irrigation season. Idaho Code Sec. 42-1401A(2) provides that the quantification of consumptive use "is included as a rebuttable presumption in a decree only for the purpose of transfers pursuant to section 42-222, Idaho Code." Therefore, the consumptive use recommended for this water right is included solely for use in future transfer proceedings, and not as a limitation on the quantity of water that the claimant may divert pursuant to this recommended right. In further response to this objection item, IDWR responds that it recommended this element of the water right as claimed.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

Reasons to support the Boxes checked.

8 The original license gave the usage date as 3/15 through 11/15 annually. The director has changed this to 4/01 through 10/31 without really considering local factors that apply to water applications but has used area factors that have many variable conditions in a span of a few miles.

We cannot afford to pump water indiscriminately because of costs. We also would pay a heavy loss on those very few years when early application was needed and more loss if the soil was too dry to harvest row crops.

I therefore wish for the period of usage to remain as the original license was issued, 3/15 through 11/15.

#10. The cropping practices used will dictate the amount of water used and as such the original Acre Feet per Year is requested. The same reasoning applies as the period of usage. Farmers will not pump water indiscriminately because of many reasons other than prohibitive costs, such as souring your soil, being able to work your soil with proper soil tilth. The list can go on and on and one of the most dangerous at this time may be the wet land provisions as interpreted by the Feds.

Dave,

I hate to be a Turd but we don't hardly ever use the early or late dates that have be changed. When we do need to use them it is critical that we can. In 41 years here there has only been 2 years prior to April 1 but harvest comes some more often - 8 or 10 years after 10/31 - And Loss of Crop could result if not for available sprinkling.

I understand A + B Irrigation is wanting the later dates but they also are in areas of better rainfall patterns -

Thanks

Dear Mr. Neibaur:

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claims listed above. Your NOE indicates that you would like the recommendation to show a longer season of use for irrigation. For the reasons states below, the season of use that will be recommended in the Director's Report will remain as proposed.

The proposed recommendation is based on irrigation season of use standards adopted by the director for the various regions throughout the state. These standards are based on the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

In addition, since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for irrigation outside the irrigation season under certain conditions. The conditions are that the water is beneficially used, as determined by the director; that all water rights with a period of use outside the irrigation season regardless of priority, are satisfied; and that the use does not conflict with the public interest as determined by the director. This proposed general provision will be included in the Director's Report.

If you still disagree with IDWR's recommendations you will have an opportuntiy to file an objection to the Director's report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Sincerely,

Marci Sterling
