Christensen, Kelly

Subject: 36-02072, 36-04110 evidence of priority
Entry Type: Meeting
Company: Norman Bagnal

Start: Thu 12/3/98 11:02 AM
End: Thu 12/3/98 11:02 AM
Duration: 0 hours

We met to discuss the priority date for the beneficial use claim. He brought in an aerial photo that he obtained from the USDA-ASCS aerial photo archive office in Salt Lake City UT. He stated that the flight date was 1956. The map number was Y5-3R-100B. I made a copy of the relevant portion of the map at 78% of normal. That photo showed the corral area under construction and the small triangular area in the SWSW corner as not being irrigated. We discussed the findings and I told him that I would get with the attorney at the SO and prepare a SF-5 hopefully by mid month.

COMMUNICATION DOCUMENTATION

AGENT: Kelly K Christensen

DATE: August 25, 1998 8:50 AM

He called to let me know that he had talked to Joe Shep concerning the addition of the 200 hp pump. Joe stated that he was working on a neighboring farm in 1954 and that he recalled the well for this right needing to be deepened following the drilling of the Bureau of Rec. well that went in across the road. As far as he could remember, that time would have been when the 200-hp pump was installed and the additional acres developed subsequent to that date.

COMMUNICATION DOCUMENTATION

AGENT: Kelly K Christensen

DATE: August 21, 1998 9:24 AM

He stated that there was also a Joe Shep that had worked on the property. I also suggested some questions to narrow the installation time frame for the pump

SPLIT INTO: A36-02072 & A36-04110

In seeking information to establish the priority date for the increase in diversion rate and additional acres Mr Bagnall sought power records, cfsa records, well drilling records, aerial photography, and visited with 2 individuals. He stated that he could not find any documentation of the date the 200-hp pump was installed.

Conversations with Mr Burton (owner at the time of the licensing field examination) did not provide any concrete information. He did state that he thought that the well was deepened in the 1950s when A&B developed a well on the adjoining property.

He also visited with Joe Schoepp who worked on a neighboring farm during that time and later worked on that property. He stated that he remembered that the well was deepened around 1955. He could not remember the 200-hp pump being installed but figured that they would have installed the pump when the well was deepened to be able to produce an equivalent diversion rate from the lower water level. The additional acres would then be developed after that date.

Mr Bagnall stated that he recorded the diversion rate in July 1998 as approximately 2400 gpm when the system was operating at full capacity. This equates to approximately 5.38 cfs. Brian Higgs (522-0399) is the contact person for the measurement district for this area.

1948	application for permit	
1954	licensing field exam.	Agent identifies the 150-hp pump and the 350 acres
1955	approx. date of well deepening	200-hp pump installed (assumption)
1956	place of use expanded	approximate date of additional acres developed under 36-04110 Per Mr Schoepp
1962	ascs aerial located	photo shows 348.8 acres irrigated and 7.2 acres not irrigated
1968	property sold	Mr Bagnall purchased property. 200-hp pump already on well
1978	corrals removed	the 6.4 acres were developed
1979	canal straightened	the 0.80 acre was developed
