RE: Proposed Recommendation for Blue Lakes Country Club
No: 36-02083A

Dear Mr. Rosholt:

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim listed above. Your NOE indicates that you would like the recommendation to show a longer season of use for irrigation. For the reasons states below, the season of use that will be recommended in the Director's Report will remain as proposed.

The proposed recommendation is based on irrigation season of use standards adopted by the director for the various regions throughout the state. These standards are based on the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

In addition, since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for irrigation outside the irrigation season under certain conditions. The conditions are that the water is beneficially used, as determined by the director; that all water rights with a period of use outside the irrigation season regardless of priority, are satisfied; and that the use does not conflict with the public interest as determined by the director. This proposed general provision will be included in the Director's Report.

If you still disagree with IDWR's recommendations you will have an opportuntiy to file an objection to the Director's report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Sincerely,

Marci Sterling
Engineering Specialist (EIT)
