

FIELD EXAMINATION OF PRBA WATER RIGHT CLAIM

Claim Identification Number: 87-11465

Date of Examination: 7/²¹~~22~~/2020

Approximate Time of Examination: 1:45 p.m. Pacific Time

IDWR Field Staff: Christopher Holmes

Point of Contact: Carmen Todd

Examination Location: 842 Nylarol St. Moscow ID 83843

Purpose of Visit:

The purpose of the exam was to photograph a copy of a dated photo showing the original home and barn on the property to be priority date evidence. The original barn is still on the property. Also, I wanted to take a picture of the barn in approximately the same location as the dated photo was taken. During the field exam, I wanted to give the claimant the opportunity to amend the claim if needed. Lastly, the claimant informed me that there was the date 1907 etched on the barn, and I wanted to take a picture and inspect it in person.

Field Examination Notes:

Took multiple photos of the barn from different angles, found the well house location, and inspected the date on the barn. The date on the dated photo is 1917. The date on the barn reads 1904. Rather than being etched into the wood, it looked like it is stamped onto the board. The date was very faded/weathered and hard to make out.

The claimant amended the date of priority to correlate with the 1904 date on the barn, amended the claim for year round use and corrected the quantity to an appropriate measurement.
