RE: Field examination of a water right claimed
in the Snake River Basin Adjudication

Dear Counselor,

The field staff of this agency may need to conduct water right field examinations of your client's water right claim(s) during the coming season. The field examiner may be visiting your client's property to obtain information necessary to verify the water use.

If a field exam is necessary your client will be contacted directly about the examination unless you contact us otherwise. If you wish to accompany your client at the time of any field examination, or if you have any questions regarding the field examination, you may contact this office.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Ownership Change

Dear Claimants:

As you know, the title company assisted you with some documents dealing with changing the ownership of water rights. Those documents were sent to the SRBA Court who in turn forwarded the Standard Forms 3 you completed to our office. In mid-1996 the Court altered the procedure placing the Department in the 'gate-keeper' role. Before we can make any changes, we must have a copy of the recorded Warranty Deeds to confirm the conveyance and legal descriptions.

Upon receipt of the Deed copies, the water right claim records will be reviewed and changed. Notice of the change will be sent to the SRBA Court, to you and any other necessary parties to the water right cases.

If your mail delivery address changes in any form, please contact us in writing so we can update our records to assure you receive important notices concerning your water right claims.

Please contact this office toll-free at 1/800-451-4129 if you have any questions.

Sincerely,

Ownership Change

Dear Claimants:

As you know, the title company assisted you with some documents dealing with changing the ownership of water rights. Those documents were sent to the SRBA Court who in turn forwarded the Standard Forms 3 you completed to our office. In mid-1996 the Court altered the procedure placing the Department in the 'gate-keeper' role. Before we can make any changes, we must have a copy of the recorded Warranty Deeds to confirm the conveyance and legal descriptions.

Upon receipt of the Deed copies, the water right claim records will be reviewed and changed. Notice of the change will be sent to the SRBA Court, to you and any other necessary parties to the water right cases.

If your mail delivery address changes in any form, please contact us in writing so we can update our records to assure you receive important notices concerning your water right claims.

Please contact this office toll-free at 1/800-451-4129 if you have any questions.

Sincerely,

Idaho Department of Water Resources

WARREN HEINS
GREG & CRISTI HEINS

2. SUBJECT OF INQUIRY:

They called to set up an appointment to get copies and review all their SRBA claims on file with the Court. They came in and asked for these copies and objection forms.

3. RESPONSE TO INQUIRY:

On the phone I told Cristi Heins, I cannot discuss the recommendations or objections; I can explain the process of the adjudication.

When they came in I explained this is a lawsuit and is operated under certain legal rules and procedures. Since I am not a lawyer I am unable to give this or other information which might be legal advice.

I gave them ^{POFFILE} copies of the recommended rights and the claims record. I explained the differences between Total Volume and Consumptive Volumes. I showed them the map published by IDWR listing these values and the season of use.

I gave them 22 objection forms and explained I cannot assist in completing them. They also got a handout explaining D+S special procedure for late filing after the DReport.

II. STATEMENT OF THE RESPONSE

8. ☒ Period of Year: I respond to the objection concerning the period of year when water is used or is necessary for the purpose stated.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 8, and all allegations of the objection regarding this item, IDWR responds as follows: Idaho Code Sec. 42-1411(2)(g) requires the director to determine the period of use of each water right acquired under state law that is recommended in the director's report. IDWR's irrigation season of use standards have evolved over time as better technical information has become available. A necessary consequence of this is that, depending on when a particular license was issued, water rights in the same area have been licensed inconsistently, some licenses being issued with different lengths of season listed and some being issued with no season of use listed. To remedy this problem IDWR has developed irrigation season of use standards for various climatic areas throughout the state based on a 75% chance of a 24 degree fahrenheit frost. The period of the year during which this water right may be used is consistent with the standard irrigation season of use for the area in which the place of use of this

water right is located. The director's report does not prohibit pre-season or post-season irrigation; subject to the conditions set forth in general provision 12b of the director's report, water may be used for irrigation outside the standard season of use.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

RE: Heins SRBA 36-02066A
Split Butte Ranch SRBA 36-02143

Dear Mr. & Mrs. Heins:

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendations of the claims listed above.

Your NOE indicates that you would like the recommendations to show a longer season of use for irrigation. For the reasons stated in my earlier letter to you regarding 36-02098 & others, the season of use that will be recommended in the Director's Report will remain as proposed.

Additionally your NOE indicates that you would like the recommendations to be changed back to the number of acres claimed with the associated AFY amounts. Our recommendations are based on field review, landsat data, NAPP photography and ASCS aerial photography to determine the extent of the beneficial use.

I have re-evaluated the basis for the acres recommended for 36-02066A and 36-02143. NAPP photography tends to support our original recommendation however Landsat information tends to support cultivation or watering of a few more acres in the areas where the farmsteads exist and where acres were reduced. For this reason I have changed our recommendations to increase the acres and associated AFY. (Please find enclosed a profile report of the corrected recommendations for 36-02143 & 36-02066A) Please note that there are still acres reduced due to roads, buildings, etc.

If you still disagree with IDWR's recommendations you will have an opportunity to file an objection to the Director's report with the court.

Sincerely,

Allen D. Merritt, P.E.
Water Rights Supervisor

(Instead of filling in items 3 and 4 below you may include a copy of your proposed recommendation with the changes marked on the copy.)

3. Describe the portion of proposed recommendation with which you disagree:

The acreage irrigated for beneficial use.

4. Describe the changes you wish to have made in the proposed recommendation:

Return to the acreage covered as per the permit. 8 acres was dropped, I assume, because of the homes, shops, spud cellars, etc.

5. Describe why you disagree with the proposed recommendation:

The area around the homes, cellar, shops and sheds is lawn; has trees, gardens that have to be irrigated and that water is used for beneficial use. The area that is not irrigated is not 8 acres. It is much less.
