Dear Linda and Evan,

First of all, thank you both for your patience with our filing and gathering supportive documentation for the 45 acres of property we were awarded from my father's Estate. It has taken quite a bit of time to get all the necessary documents.

Enclosed is the necessary paperwork Linda sent to us this past February.

1. Notice of Change in Water Right Ownership.
2. Letter from my cousin, Ellen Bramlet stating when my maternal grandparents moved to Hatter Creek and purchased our property.
3. Copy of the deed to the 45 acres we are requesting water rights for which was previously owned by my father, Roy W. Scoles.
4. Copy of the three water right claims with corrected date of priority (87-10630, 87-10630 & 87-10628) along with the aerial maps indicating where each stream is.
5. Copy of quit claim deed for the 45 acres adding Ray T. Ahles to the listed owner.

Please let me know if you need any additional information for these claims.

Thank you for your guidance,

Jan Ahles

I hope this helps. I remember a time when I was about 5 years old that we went to visit Granddad and Grandma on the Fisher Place. That would have been in 1949. The next time we came to visit they were on the place on Hatter creek. I don't recall if it was when I was still 5 or if I was 6 when we visited at the place on Hatter creek.

I have some information they Granddad and Grandma moved onto the Fisher place in 1921 and that is where Wanetta, June and Doris were born. When they left the Fisher place John Leinhard took it over. You might contact Ray Leinhard for more information. He might know. The new house on Hatter creek was built in 1959.

Have a nice Easter and I hope you get the water rights straightened out.

Take care
Ellen and Jack
