Subject: Re: IDWR Notice of Claim Phone Call

Looking east at Princeton from Hampton on the old road, 1912.

This is a picture of my old shop in the back ground in Princeton Idaho in 1912.

Good afternoon,

I am emailing you in regards to the conversation we had over the phone today. There were a couple things I forgot to mention on the phone that is important. First, I sent the original claim back to you in a letter dated March 23, 2020. **It is important that you sign and date the claim form.** I sent it back because I could not process the claim because it was not signed. On the letter I sent there is a response deadline, you can ignore that date. Also, I forgot to mention on the phone, if the shop began using the water in the 1930's, you can amend your claim to represent that date. If you want to do that, on the claim form cross out 1/1/1969 and in an adjacent space write the date the shop was built (which will be backed up by the written statement you provide) and initial next to the new date. **Whether or not you amend your claim, please sign and date the claim form and mail it back to me.** If I don't receive that form I will not be able to proceed with your claim.

Along with the claim form, please include a short statement documenting the history of the property including: when the shop was first built and began using water, the property has been in your family since the shop was built and you are the 4th generation owner, and the original well was replaced with the well drilled in 1969. Also, if you find that old photo of the shop you can include that as evidence. Please sign and date the statement. For the photo, you can either email me a copy or mail a copy along with the claim form and written statement.

I apologize that I forgot to mention some of these things over the phone. If you have any questions, feel free to call or email me and I will get back to you as soon as I can.

Sincerely,

Christopher Holmes
