Subj: Question about Change of Ownership

Good morning. Have you changed the spelling of your first name?

Anyway, to business ...

A change of ownership forms was filed in December 1989 for 36-04060, 36-04057, 36-04059 and 36-07413. I think, however, the documentation attached to the form also mentioned 36-02230B.

I'd appreciate it if you would look in the claim files and confirm that the change from Travelers Insurance Co. to Blincoe Farms, Inc. should have included A36-02230B and if so, make that change.

Please don't hesitate to tell me if you can't, won't, don't want to, etc. My problem is that I am making assumptions about the paperwork, but I'm not sure that the documentation I have and the change of ownership form actually go together. It may be that the original change form and documentation clearly deal with this.

Thanks. Helen

Well, since you have all the original paperwork, if I have my druthers, I'd like you to run it by Allen and if all the paperwork is in order, I'd like to have you make the change.

Okay??

Dear Sirs:

Re: A36-04057.

This water right is on approximately 300 acres located in Sec 31, 7-23, with aprox. 287 acres irrigated beginning in 1954.

Re: A36-04060

This water right is located in the center of Sec. 32, 7-23 and irrigates approx. 176+ acres and was started in 1956.

Re: A36-04059

This water right is also located in Sec. 32, 7-23 and was used beginning in 1957.

I was involved with these land transactions from Julion Clawson Farms to Blincoe's and was very interested in the development and progress made from this irrigation. I observed the usage on a daily basis during this time as it was important to our own future.

This was a first class operation and the water was beneficially used beginning as stated above.

Sincerely,

Mack W. Neibaur

I do not recognize claims A36-4057, A36-4059, & A36-4060 as being disallowed. Rather I recommend that they be "Zed" as combined rights recommended under A36-15362.

Per the 5th paragraph of Hellen Harrington Thornton's memo dated Apr 13, 1992, A36-15362 is recommended based upon the combination of the three statutory claims.

If the three statutory claims were to be disallowed, there would be no valid claim to support the recommendation for A36-15362.

I accept the P/U, P/D, and rates of div. recommended for A36-2230B, A36-7413, AND A36-15362.

Subject: DISCUSSION OF RECOMMENDATIONS

=====

The above claims are for water used in one common system. Burke Scholer conducted field work during the 1991 and identified the points of diversion, place of use and system design.

In essence, he found 960 acres irrigated with a common system, utilizing 4 points of diversion. Additionally, through his findings, he determined a total flow rate of 13.42 cfs. (This is based on number of nozzles; see calculations in file A36-02230B, which also contains the original maps and notes from his field work.)

Evidence of priority was submitted in the form of statements from Mack Neibaur supporting the years claimed on the statutory claims. However, Mr. Blincoe's submitted a statement describing the "additional land over and above permit" were put into irrigation when the system changed from gravity to sprinkler in 1979, 1980n and 1981.

Therefore, it appears that an expansion of acres, over and above the licenses occurred by 4/1/1981. The three statutory claims have been disallowed and an expansion claim for the acres over and above the licenses has been recommended with a 1981 priority. Specifically:

36-02230B	524 acres	7-15-53	10.0 cfs
36-07413	259 acres	11-30-73	5.18 cfs
36-15362	177 acres	4-1-81	2.80 cfs
36-04057, 04049, 04060 - DISALLOWAL (see 36-015362)			

The expansion claim developed as a recommendation combining the three statutory claims, which adequately cover fees and intent of claimant.

The expansion is also recommended based on the finding that no additional water was diverted, but rather increase in acres was a result of conversion to sprinklers.

Permissible place of use is recommended based on Burke's notes and contact with claimant.
