Gary Spackman:

In reply to your letter of May 1, 1995,
and also in reference to the above listed
water rights.

Listed below are reasons for the delay
in response. I hope you will understand,
and will use option #2, as it is too late
to install measurement devices.

The land was to sold to Richard L. Kicht,
DBA Westwind Farms, 218 West 13th Street,
Burley, Id 83318, in the spring of 1994.
I checked with the Twin Falls office, and
they do not show this transaction on their
records. This is possibly explained by a
delay in your receiving notice of this
transaction.

MICROFILMED
DEC 04 1996

A36-12340

I left in August 1994 for warmer climate, which explained why I was unaware of the need to install measuring devices.

The person taking care of my affairs in my absence was knowledgeable of the sale, so he didn't think it was "our" need to take care of this affair.

Prior to my plans to return home in the middle of March I was put in the hospital in San Diego for a seven week hospital stay, which delayed getting home for a couple of months. This explains why I was unaware of the need for a measuring device.

From these reasons I hope you will cooperate with me in using power records for your measurements.

If this is all right with you please advise me of what I need to do now.

Thank you for your patience

CECIL D. ANDRUS
GOVERNOR

R. KEITH HIGGINSON
DIRECTOR

Dear Wateruser:

NOTICE OF PENDING ADMINISTRATIVE ACTION

In December, 1994, the Department of Water Resources sent you a notice stating that you would be required to measure and report your diversions of water during 1995. A measurement option form, enclosed with the order was to be completed and returned to the Department. You were asked to indicate on the form whether you would install measuring devices, or whether you wanted to sign an agreement with the Department to estimate your water withdrawals with power records. The Department has not yet received a measurement option form from you. The Department sent two reminder notices to you, without response.

The laws controlling water measurement in the state authorize the Director to issue a notice of violation and cease and desist order to waterusers who are not complying with the order from the Director to measure their water diversions. This letter is a last warning that you are subject to the measurement requirement. Because you have not responded, the Department must assume that you have installed measuring devices, and that you are recording monthly water withdrawals. If you are currently measuring, you must obtain reporting forms from the Department, which you must complete and return to the Department at the end of 1995.

If you are not measuring your water diversions with a measuring device, any diversion of water is an illegal diversion during 1995. Withdrawal of water for use on crops or for any other purpose without measuring the withdrawal, or without an agreement filed with the Department to estimate your diversion with power records, is an illegal diversion of water.

This letter is a final notice that the Department will investigate your use of water during 1995. If you are diverting water without a measuring device installed, the Department will initiate action to curtail your diversion this summer. The Department does not want to deprive waterusers of their supply of water. It is important, however, that those using water attempt to comply with the law. Please contact me if you have any questions.

Sincerely,

Gary Spackman

confirmed
SW 10 acre designation ~~matches~~ well mark placed on at the photo.
this right also requires 2 additional P/Ds so this right is combined with
3 other rights in a permissible PU. 3 wells share one common system for
all irrigated acres. add to PD per legal desc. shown on Code work sheet.
