Administrative Proceeding (NAP)

Dear Mr. Sauer:

The Idaho Department of Water Resources (IDWR) received an
Application for Transfer for the above referenced water right(s).

In response to the Application, this office is sending the enclosed NAP
to the SRBA Court and other parties listed on page 2 of the form. The
intent of this mailing is to notify those parties of the requested change.

Please feel free to contact me if you have any questions concerning this
matter.

Respectfully,

AGREEMENT AND EASEMENT

THIS AGREEMENT, made and entered into this th 24 day of October, 1985, by and between JOE HARTWELL and MILLIE E. HARTWELL, husband and wife, of Jefferson County, Idaho, hereinafter referred to as "Hartwell" and SAUER ENTERPRISES, an Idaho partnership having as a general partner Neal Sauer, hereinafter referred to as "Sauer",

WITNESSETH:

WHEREAS, Hartwell is the owner of real property situate in Section 5, 8 and 17 of Township 7 North, Range 34 E.B.M. in the County of Jefferson, State of Idaho.

WHEREAS Sauer owns certain real property situate in the County of Jefferson, State of Idaho, which real property is within Section 13 of Township 7 North, Range 33 East Boise Meridian and within Section 18 of Township 7 North, Range 34 East Boise Meridian.

WHEREAS Sauer's predecessors in interest have drilled two (2) irrigation wells in the Northeast Quarter of the Southeast Quarter, Section 5, Township 7 North, Range 34 East Boise Meridian, which property is owned by Hartwell, and have used water from those wells for irrigating the land now owned by Sauer, which wells are shown on the map attached hereto as Exhibit "A" and incorporated herein by reference.

WHEREAS Sauer and his predecessors in interest have transported the irrigation water from the above described wells through two ditches commonly referred to as the McKevitt Ditch and the Mitchell Ditch, which ditches are shown on Exhibit "A" attached hereto.

WHEREAS Sauer now desires to connect the two wells described above by a new irrigation ditch and use the Mitchell Ditch as the sole means of delivering water to the lands owned and irrigated by Sauer.

WHEREAS the parties desire to enter this Agreement to govern the use of the two irrigation wells, the Mitchell Ditch and to define the easement accompanying the Mitchell Ditch.

NOW, THEREFORE, it is mutually agreed that for and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration, paid to each of the parties by the

other parties, the receipt whereof is hereby acknowledged, and in further consideration of the mutual covenants and agreements hereafter contained, the parties do hereby agree as follows:

1. Hartwell does hereby grant to Sauer, its heirs and assigns, the perpetual right and privilege to draw water, subject to the ditch flow limitation described below, from the two existing irrigation wells located in the Northeast Quarter of the Southeast Quarter, Section 5, Township 7 North, Range 34 East Boise Meridian, Jefferson County, Idaho, which two wells are shown on the attached map and are designated as the West Well and East Well.

2. Hartwell further grants to Sauer, its heirs and assigns, an easement 40 feet in width between the East Well and West Well for the construction, use and maintenance of a new irrigation ditch through which water flowing from the West Well will be transferred to the head of the Mitchell Ditch located at the West Well, and Hartwell further grants to Sauer permission to construct said ditch along the most direct practical route between the two wells. When so constructed, the ditch shall serve as the center line for the 40 foot wide easement described herein.

3. Hartwell further grants to Sauer, its heirs and assigns, an easement 40 feet in width having as its center line that portion of the existing Mitchell Ditch lying in Sections 5, 8 and 17 of Township 7 North, Range 34 East Boise Meridian. The easement in the Mitchell Ditch as described herein shall be subject to the limitation that no more than 816 inches of water (16.32 cfs) may be taken from the two wells described in paragraph 1 above and transported through the Mitchell Ditch to the Sauer property. The parties further agree that the use of the easement for the delivery of any water in excess of the amount stated above shall be an excessive burden upon the easement and is prohibited by this agreement.

4. Sauer shall have the right to use and enter upon the easements described above for the purpose of maintaining, repairing or replacing the ditches, pumps, motors, or other equipment. All such maintenance, replacements or repairs shall be at Sauer's sole expense, and Sauer hereby indemnifies and holds harmless Hartwell, his heirs and assigns from any and all labor or material liens which may arise for maintenance or construction operations conducted on Hartwell's property. Sauer shall have the right to construct a road along the Mitchell Ditch and the new ditch to be constructed between the East and West wells, so long as those roads lie within the easements granted to Sauer herein.

5. Hartwell and Sauer hereby agree that Sauer may continue to use both the Mitchell and the McKevitt Ditches for the 1985 irrigation season. After the 1985 irrigation season, all delivery of water from the two wells described in paragraph 1 above to the Sauer property shall be made through the Mitchell Ditch, and Sauer hereby abandons all right, title and interest, if any, which they may have in the McKevitt Ditch.

6. This agreement is intended to fully define the rights of Sauer in the real property owned by Hartwell. As such, it supersedes any and all prior agreements, whether oral or written, easements, prescriptive easement, or any other documents between the parties hereto or their predecessors in interest.

DATED this 24th day of October, 1985.

RE: EVIDENCE OF PRIORITY

Dear Claimant(s):

The Notice(s) of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

EVIDENCE OF PRIORITY

Page - 2 -

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by MARCH 9, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Eric Verner
Senior Water Agent
