Jeanie,
Warren Crane called me today about measurement stuff, and we talked about the recent split of several rights, including the one above, between he and his brother. I noticed that the total diversion rate for these dropped from 4.24 to 4.12 cfs. Why??

Thank you,
Scott K

Got your message and I confess, I don't remember off-hand, but I'm working on it. Think it had something to do with an error on the first report but I'll check and get back to you. More later...

It's just as I thought, there was an error in the Remark the first time. When you take the three combined rights before this recent split:

36-02365 1.0 cfs
36-02473B .41 cfs
36-07011 2.72 cfs

[4.13 cfs total] but was mistakenly totaled to 4.24 cfs

I noticed this when I was trying to total the cfs for the new "Combined Remark" after the split. When it didn't match, I went back to see why. As far as it now totaling 4.12 cfs, I'm sure the small amount just got lost in the rounding process... Thanks for noticing this though, I probably should have made clearer notes when I originally did this, so I wouldn't have to go back and re-invent the wheel later! . Jeanie

Case No. 39576	)	INCORPORATING INTO PARTIAL DECREES AN
	)	EXPRESS STATEMENT REGARDING GENERAL
	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-15 to 10-01

The use of water for irrigation under this right may begin as early as March 15 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 15 and after October 1 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

IT IS FURTHER ORDERED that the ***Partial Decree*** for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the ***Partial Decree*** was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the ***Partial Decree***.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

It's just as I thought, there was an error in the Remark the first time. When you take the three combined rights before this recent split:

36-02365 1.0 cfs
36-02473B .41 cfs
36-07011 2.72 cfs

[4.13 cfs total] but was mistakenly totaled to 4.24 cfs

I noticed this when I was trying to total the cfs for the new "Combined Remark" after the split. When it didn't match, I went back to see why. As far as it now totaling 4.12 cfs, I'm sure the small amount just got lost in the rounding process... Thanks for noticing this though, I probably should have made clearer notes when I originally did this, so I wouldn't have to go back and re-invent the wheel later! . Jeanie

A *Partial Decree* was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-15 to 10-01

The use of water for irrigation under this right may begin as early as March 15 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 15 and after October 1 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
