Jay Thacker

2. SUBJECT OF INQUIRY:

Mr. Thacker still felt his diversion rate has been reduced. He feels his license (36-02369) for 3.95 cfs and license (36-07949) for 1.41 cfs should be added together to allow him to divert 5.36 cfs rather than 4.04 cfs as recommended

3. RESPONSE TO INQUIRY:

I explained that the license examination for 36-07949 (performed 7/16/87) showed his well and pumps would only supply 4.04 cfs when operating the full system.

I used "M63 computer option" so that he will be sent the court objection form which he can file with the court.

3. Describe the portion of proposed recommendation with which you disagree:

1. Period of use 04-01 10-31 from 03-15-11-15
2. Limited to 4.04 CFS on my combined water rights which on my calculations should be 5.36

4. Describe the changes you wish to have made in the proposed recommendation:

Change item 1 to the original.
Change item 2 to 5.36 which my licenses add up to on the combine CFS.

5. Describe why you disagree with the proposed recommendation:

With item one on occasion the season may warrant irrigation at that time period.

- Item two is what my license calls for.
It seems to me the government just keeps taking a little

2. SUBJECT OF INQUIRY:

wanted to know why his diversion rate
was 4.04 cfs and why the period of use
was changed.

3. RESPONSE TO INQUIRY:

I told him the diversion rate was
limited to 4.04 cfs on License 36-07949 (as
much as the well produced when measured on
field exam). I also told the period of use was
determined by average growing season of the
area.

He felt his well may produce more water and
may not have been operating at maximum flow
when it was measured.

RE: Snake River Basin Adjudication (SRBA)
Notice of Error - A36-02369

Dear Mr. Thacker:

We are in receipt of the Notice of Error on the above referenced claim. We are not making any changes to the recommendation at this time.

Regarding the combined diversion rate recommended, according to our files the measured total capacity of the system is 4.04 cfs. We are unable to recommend a rate more than the physical capacity of the system.

The proposed recommendation is based on irrigation season of use standards adopted by the director for the various regions throughout the state. These standards are based on the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

In addition, since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for irrigation outside the irrigation season under certain conditions. The conditions are that the water is beneficially used, as determined by the director; that all water rights with a period of use outside the irrigation season regardless of priority, are satisfied; and that the use does not conflict with the public interest as determined by the director. This proposed general provision will be included in the Director's Report.

If you still disagree with IDWR's recommendations you will have an opportunity to file an objection to the Director's report

MICROFILMED

with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Sincerely,

Helen Harrington-Thornton

CONVERSATION MEMORANDUM

EMPLOYEE: STEVE CLELLANDFILE A36-07949RE: EXPANSION ACRES ON BLM = 14 Ac.DATE 12-3-919:45 AM

NAME OF PARTY

Mrs. Jay Thacker438-5494

I called to inform the Thackers of their possible option to include these expanded irrigated acres into the adjudication process. She said some of the ground is no longer irrigated because it was BLM; but we couldn't be positive just talking over the phone. I suggested they review their licenses and claims to see if all their acres are covered by water rights.

12-4-91JAY THACKERcalled back8:30 AM

He said the two parcels in question were owned by BLM and after he was fined he decided not to irrigate the lands. The Ditch contours had originally covered this land and he just assumed it was part of the farm. The lands are not to be irrigated.
