Water Rights #36-02385, 36-07025 & 36-13877

Dear Water Right Holders:

Mail recently sent to you was returned to us by the Postal Service. They also advised us your address has changed to the above address. We have enclosed the returned mail.

Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter, **list any other water rights you have**, and return this letter by August 16, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records. Be sure to list your water right numbers.

If there has been a change in ownership of the property connected with the water right referenced above, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

RE: Irrigation Of SE 1/4 Sec. 5 T. 9S R. 21E

Dear Mr. Harper;

It has come to our attention that you are irrigating the above-referenced land under the Sikes Act in cooperation with the Bureau of Land Management. While you irrigate the west half of Sec. 5 under Water Licenses 36-02385 and 36-07025, I find no record of water rights or claims on the BLM land. According to the Shoshone office of the BLM, you have been irrigating this property since 1977. They also told me that you have agreed to continue irrigating the land through 2001.

Irrigation without water rights is illegal under Idaho law, however, and it is our responsibility to stop this practice when it is discovered. You have the option of filing an expansion claim in the Snake River Basin Adjudication. If the claim is accepted and eventually decreed, it will allow you to continue irrigating the BLM ground as long as your licensed flow rate is not exceeded. The BLM told me that they have no plans to file a claim on this ground, even though they want such claims to be put in their name once filed by the irrigator. If you do choose to file a claim on this ground, please contact the SRBA staff at our Twin Falls office for assistance.

If you do have a water right for the BLM land that has not been properly recorded, please identify this right so that our records can be corrected. Otherwise, you should cease irrigation of this land until a water right is obtained. You can also obtain an existing groundwater right and transfer it to this ground on an acre-for-acre basis. If you wish to go the transfer route, I can assist you with the paperwork if you so desire.

Please contact me on this matter by September 4. Please note that

illegal water diversion carries a fine of up to \$100. per day under Sec. 42-352 of the Idaho Code for every day that a cease-and-desist order is violated. This letter is not an order, but rather an attempt to obtain your cooperation in this matter.

SUBJECT: Possible Illegal Diversion, Clyde Harper

436-06//

Today I spoke with Jeff Harper (son of Clyde) on this matter. He told me that the subject ground (SE 1/4 Sec. 5 T. 9S R. 21E) is irrigated with wastewater from the A & B Irrigation District. This land is just west of the A & B system, and apparently there is a drain ditch at the very west end of A & B that Mr. Harper pumps out of to run a pivot on BLM land. Jeff said that the right to use this water was decreed in a court case about 10 years ago, but we never received a copy of the case. Jeff will try to get us a letter explaining the situation, plus a copy of the decree. This may be enough to establish a water right, and may even take it out of the purview of the SRBA. Once we get the case, the legal staff will probably need to study it to see if an SRBA claim is needed to maintain the right.

Based on the above, I see no reason to issue a cease-and-desist order at this time. Even if the 1987? court case is not a sufficient basis for a water right, it should be easy enough to approve a water permit for this use. BLM records show the use started in 1977, so we should be able to grandfather in a permit despite the moratorium. This use actually helps A & B reduce its reliance on injection wells to get rid of its wastewater, so they support this use (according to Jeff).

SUBJECT: Possible Illegal Diversion, Clyde Harper

As a follow-up to my memo of earlier today, I spoke to Dan Temple of the A & B Irrigation District (he actually called me). He told me that the drain that Mr. Harper pumps out of is within the District, but the place of use is outside the District. A & B claims ownership of this water, and would protest any filings on it by other parties. The District sells permits for the use of the water, and Mr. Harper has a permit for 200 acres from them. Their attorney is out of town until September 8, and they will have more information once he returns. I told Mr. Temple that we would not take further action until we receive their full response. I'm not sure if they can legally issue permits to the use of water on land outside their system, so it will be interesting to see how this thing finally comes out. It is likely that other, as-yet undiscovered, water users will also be affected by this. I guess Mr. Harper will be a test case.
