MEMORANDUM

TO: Files 36-02404B & 36-10058
FROM: Pam Skaggs/State Office *CS*
SUBJECT: Transfer 5166
DATE: September 22, 1998

Transfer 5166 combines the domestic well under decreed Right 36-10058 with the dairy and irrigation system under a portion of Right 36-02404B, splitting the right into C and D.

The applicant originally proposed the dairy development under a portion of irrigation Right 36-02404 and approved Transfer 4018. The dairy was built on-site and less acres were actually removed than originally thought. Also, the dairy as developed is larger than originally proposed. Transfer 5166 will clarify the actual developed uses and account for the remaining irrigation. A small portion of the applicant's right is no longer used following the completion of the dairy as identified under Right 36-02404C.

The changes to Right 36-02404B from the original irrigation use in 1993 to the combined dairy and irrigation use identified under Transfer 5166 do not result in an expansion of the water right. No physical changes will occur through approval of this transfer.

Season of use and diversion volumes were adjusted to reflect the uses as described. Recommended conditions include decreed conditions for 36-10058, combined right limits, measuring & annual reporting, irrigation overlap and standard transfer conditions.
