Notice of Error Response
Recommended Right Nos. 36-02408, 36-02552
36-10024 and 36-10025

Dear Mr. Telford,

You recently filed a Notice of Error with IDWR concerning the water rights referenced above. No change to our recommendations have been made at this time.

The proposed recommendations are based on irrigation season of use standards adopted by the Director for the various regions throughout the state. Our standard irrigation season is the period of the year in which there is less than a 75% chance of a 24 degree F. frost.

Since there are some years in which water can be beneficially used for irrigation outside the irrigation season, the proposed Director's Report includes a general provision which provides for such irrigation under certain conditions: the water must be beneficially used, all water rights with a period of use outside the irrigation season must be satisfied and the use must not conflict with the public interest as determined by the Director.

You do not seem to have a specific concern about the other issues mentioned on the Notice of Error forms. If you wish to discuss any of these issues, please call an agent in our office. Understand that any changes to our recommendations must be complete by October 14, 1992.

Please contact this office if you have other questions or concerns.

Sincerely,

CLAIMANT'S NAME: Mike Telford

DATE: 3-10-92

COUNTY: Lincoln

EMPLOYEE: S.W. Keen

I spoke with Mike Telford at 436-5957 (Mobile phone) to ask the following:

1) Would he rather have expansion claim A36-10025 or license A36-08189 recommended? I explained the priority date difference. Mr. Telford indicated he would prefer having ~~A~~ A36-10025 recommended.

2) Would Mr. Telford prefer recommendations using permissible place of use? After I explained the concept, including the disadvantages, Mr. Telford indicated that he prefer permissible place of use because it more accurately describes the reality of his farming practices.
