Hello,

The Idaho Department of Water Resources recently received the Notice of Claim to a Water Right you filed. The correct and full filing fees must be submitted with the Notice of Claim in order to include your water right in the report to the court. I have a few questions before I am able to calculate the fees. Typically we allow one source per claim. Do use your well for domestic and stockwater? Do you use ground water to fill the pond or is it exclusively surface water runoff?

I suggest you file a claim for the pond if it existed before 1971. I don't see any pond on the imagery. I've attached a map. Please use the map to identify the location of the pond. Also, please use the attached map to show the location of the well for claim 87-11772.

The fee for domestic and stock from ground water is \$25. We will hold your claim until we receive the filing fee. If we do not receive the filing fees within 30 days, we will assume you are no longer interested in filing and the claim will be rejected. You may send the fee to the address below. I have attached a copy of your claim and a map showing your place of use and point of diversion. Please contact me if you have any questions or concerns.
