Re: Point of Diversion

Claim 87-10274 proposed 3 points of diversion (POD's) for the domestic use. Department records show a single domestic well (metal tag No. D0056269) at the place of use (POU). This well was completed on 7/25/2010 for Stephen Bergmann, who is one of the claimants. The well is located in the NWNW QQ, Govt. lot 1 of Section 7, Twp. 39N, Rge. 04W.

Two of the claimed POD's are listed in the same QQ as the current well. The third POD is claimed in the SWNW QQ, Govt. Lot 2 of Section 7, Twp. 39N, Rge. 04W.

I called the claimants on 8/27/2020 and spoke to Mr. Bergmann seeking clarification as to why the claim listed 3 wells. Mr. Bergmann stated that the two wells in the NWNW QQ are currently in use. He listed a third POD with the intent that he would use a new well in the future as his current wells have struggled to produce adequate water in the past.

Because the claimants are only currently using 2 POD's, they will be the only wells recommended. Both the recommended POD's will be in the NWNW QQ, Govt. Lot 1 of Section 7, Twp. 39N, Rge. 04W.
