Dear Claimants:

Payment has not been received as directed in the certified letter you received on August 8, 1991. Rather than returning the claims to you, the record of the claims will go into a rejected status and remain in that category until payment is received from you. The account will continue to accrue interest, and any fees will not be returned whether the claims are investigated or not.

This will be your last notice until such time as the findings of the Director are included in his report to the Court of the water right claims in that area. Without further payment on the claim fee account, the findings of these claims will be that the claims were rejected for insufficient fees.

If your payment and this letter pass in the mail, I apologize for this letter.

Sincerely,

Donald V. Shaff

SUBJECT: Conflict Between Lic. Exam & SRBA, Costa Delis Farm
(36-02448, 2458, 7604)

I recently completed the licensing exam for 7604 per your request. On the tracts that were recommended under the earlier rights, I found 48 fewer acres in 9 tracts. The rest of the tracts had more acres, as additional land was developed under the 7604 permit. A copy of my exam is attached. I recommended a ppu of 1063 acres instead of trying to sort out this mess. Data is attached for your info in case you want to change SRBA records.

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)
 3 wells & pumps, booster motors & pumps on Wells #2 & 3, connecting mainline to seven pivots & 14 1/2 1/4-mile handlines. Operates at 45-65 psi. Two small boosters were added in 1992 when pressure was reduced from 90-100 psi. in 1991. The main pump for Well #3, and the booster for Well #2, were in the shop for repairs during my exam due to mouse damage this year. The 2 small boosters add pressure for the handlines.

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

System is already licensed for 9.54 cfs. Pumping Capacity of 15.48 cfs - 9.54 cfs = 5.94 cfs to be licensed

2. Alternate Method for Checking Purposes:

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1063 \text{ acres} - 610 \text{ ac licensed} = 453 \text{ ac.}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 453 \text{ ac} \times 4 = 1812 \text{ AFA}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 1812 \text{ AFA}$

2. Volume Calculations for Other Uses:

REMARKS AND OVERLAP REVIEW ANALYSIS

Purpose of permit was to add additional land & additional pumping capacity to the existing system. This has been accomplished.
Except for operating at lower pressures now, the system is essentially the same as when the wells were measured under an energy audit by Scott King in 1991. So I am basing my licensing recommendations on these measurements.
This is very rocky ground with a lot of land irrigated but not cropped. Only the crop land is recommended as a place of use.
In 7 tracts in Sec. 35 & 36, I found 48 fewer acres irrigated than did SRBA. To deal with this problem, I am recommending a PPU of 1063 acres including the licensed ground. Mr. Newton agreed that the aerial photos are essentially correct with regard to the cropped acres. I also discussed my findings with Mr. Annett (co-permittee).

I. RECOMMENDATIONS

1. Recommended Amounts

RE: Snake River Basin Adjudication
Lincoln County -#A36-02458 and #A36-02448

Dear Mr. Keen,

Thank you for your letter of February 14th.

This will acknowledge our telephone conversation where we discussed the third well in the permits.

If you need to view that well or have any further questions concerning it I would appreciate an opportunity to take you to the ranch to show you the construction of the well referred to.

If you have any other questions concerning this matter please do not hesitate to call.

Very truly yours,

James Annest

CLAIMANT'S NAME: James Annest and Costa Delis DATE: 2-18-92COUNTY: LincolnEMPLOYEE: S.W. Keen

Mr. Annest returned my call to discuss the points of diversion listed on these claims. I explained that I needed to know two things:

- 1) Does the well at T07S, R22E, S06, NWNENE actually exist?
- 2) When were the three wells interconnected?

Mr. Annest replied that the well in question does exist. He has no idea why we have no record of it, but he suggested looking under the names Turgensen and Lowry. This well was supposedly drilled in 1975 or 1976.

The system interconnection was completed, according to Mr. Annest, about 1980.

Mr. Annest also indicated that he would be the person to contact if we do a field exam.

Dear Mr. Annest:

I have been trying to reach you for two weeks to ask you some questions regarding the water right claims referenced above. I am specifically interested in the development of the well you claimed in T07S, R22E, S06, NWNENE and in the interconnection of the three wells listed on each of these claims.

I would appreciate a phone call from you or someone whom you trust to discuss these claims with me. You can reach me at 327-7934 in Boise.
