RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 67. The Notice(s) of Claim identified with the number shown **above in the "address" label and at the "end" of this letter** has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority".** The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date".**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department cannot recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by **May 6, 2005 referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 287-4907.

In addition, a contractor employed by The Idaho Department of Water Resources may be contacting you to set up a field exam in order to verify the elements of your water right.

Respectfully submitted,

Melanie L. Vining

Renumbered Notice of Claim to a Water Right No. 67-14326

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim.

Please note, the ownership change has also been completed for 67-4101 and a copy is enclosed. I have forwarded the ownership change information to our State Office to process water rights 67-11231 and 67-14071, as they have already been decreed by the SRBA Court.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

WATER RIGHTS

Water rights include a ground water right in Sec. 21 for stockwater, ground water in Section 30 for domestic use, a water right from Hornet Creek for irrigation for 34 acres, and 75 shares from the Hornet Creek Reservoir for irrigation.

The details on these water rights are as follows:

A67-14071 - surface runoff in small dam - .04 cfs
priority date 7/31/66, point of use and diversion in Section 21

A67-11231 - domestic use for residence - .04 cfs
priority date 12/31/47, point of use and diversion in Section 30

A67-04101-irrigation for 34 acres and instream stockwater-.68 cfs
priority date 6/1/40, point of use and diversion in Section 30.
Copies of the profile sheets are in Appendix II.

Hornet Creek Reservoir - 75 shares - This is not tied to a specific piece of land, but can be applied to any parcel. The information on the Hornet Creek Reservoir water was provided by Derry Gossard, chairman, and Jack Rubelt, secretary. This is a low maintenance project. The 1998 assessment was $37.50, but there had been no assessment for the prior four or five years.

ENCROACHMENTS

The Farm Service Agency (FSA) map for the Conservation Reserve Program (CRP) acres shows a small acreage in Sec. 16, T17N, R1W. According to records in the Adams County assessor's office all of Section 16 is in State of Idaho ownership and none in Mildred Harrington. The acreage involved is small, probably two or three acres or less. The FSA map is an aerial photograph. The discrepancy could be a number of things including photo distortion. Resolving the question and locating the actual lines on the ground would be expensive and not warranted by the situation. The FSA map was the same when the crop ground was enrolled in CRP in 1987. This difference is not considered significant enough to adversely affect the value estimate. If the crop ground in Section 16 were eliminated from the CRP program, the difference would be about $70 annually depending on the acreage eliminated. A copy of the FSA aerial photograph is in Appendix III.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 67. The Notice(s) of Claim identified with the number shown **above in the "address" label and at the "end" of this letter** has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority".** The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date".**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

The Department cannot recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by **May 6, 2005 referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 287-4907.

In addition, a contractor employed by The Idaho Department of Water Resources may be contacting you to set up a field exam in order to verify the elements of your water right.

Respectfully submitted,

Melanie L. Vining
