5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

MEMORANDUM

TO: FILE NOS. 36-02562 & 36-08161

FROM: PAM SKAGGS/²STATE OFFICE

SUBJECT: TRANSFER NO. 4915

DATE: March 25, 1997

=====

Transfer No. 4915 changes the place of use under Right Nos. 36-02562 and 36-08161. The transfer is based on Right No. 36-02562 as recommended in the SRBA Basin 36 Director's Report and Right No. 36-08161 as licensed following the Director's Report.

The application was originally filed to cover a shift in irrigated acres for the 1996 season. When the transfer reached the state office for final review following the 1996 irrigation season, I wrote the applicant explaining (1) the transfer approval would be permanent in nature and (2) it appeared the original intent of the transfer would not be accomplished at this time. I asked the applicant to inform me rather he would like the transfer processed or rather he would prefer to withdraw the application. After discussing the matter with his renter, Mr. Dunford requested that the transfer be approved.

Review of the proposed transfer shows a reduction of 22 acres within the SENE, S24, T09S, R21E. This legal description was not covered by the tax records submitted with the application, but ownership was confirmed by the Jerome County Assessor's office on this date.

Right No. 36-02562 was recommended with a volume in excess of the maximum amount available under the recommended rate of diversion. The transfer approval limits the volume to the maximum diversion volume available or $2.09 \text{ cfs} \times 213 \text{ days} \times 1.9835 = 883.0 \text{ afa}$.

Recommended conditions include permissible place of use, irrigation overlap, supplemental groundwater use, combined limits and standard transfer conditions.

NOV 07 1996

FROM: Allen Merritt *AM*

DATE: November 5, 1996

TO: Transfer File No. 4915
In the Name of: Dunford

SUBJECT: Review and Recommendation

In response to a letter inquiring about an illegal use of water, Mr. Dunford filed this transfer. The transfer proposed to change the place of use for this season to cover the lands irrigated. Remarks Part 1.d. indicate it is the intention that the right revert back to the original P/U after this season (season now over).

The application was published late in the season due to delayed staffing because of other projects. No protests were filed.

At this juncture I do not know what the recommendation should be other than the use of the water on the lands irrigated this year was authorized but now the use reverts back to the original place of use.

CERTIFIED MAIL

RE: Potential illegal water use

Dear Mr. Dunford:

Our office has become aware of a potential water development for irrigation of approximately 20 acres of land within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 18, Twp. 09S, Rge. 22E, B.M., in Minidoka County. On this day one of our agents has viewed the property and it appears it has been cultivated and a wheel-line placed on the property ready to irrigate the land. I assume you intend to irrigate the land from your well in Section 24 Twp. 09S, Rge. 21E. used to supply License 36-02562 and 36-08161 for use on other lands.

I have searched our water right records and find that no water right exists for use on the above described lands from the well.

Please be aware that since 1963, to develop a use from groundwater and since 1971, to develop a use from surface water, you are required first to obtain a water right permit. Since no right or permit exists in our records I request your cooperation in:

- identifying what water right covers your development if our records are not correct.

- do not start the diversion from the well to these lands if you do not have a water right.

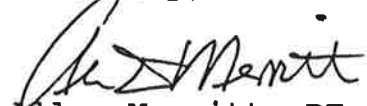

- &/or obtain a valid permit or water right for your development.

Please respond to our office within 14 days of the date of this letter as to the status of your project. Please also note that to divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day.
