Remarks:

Comments:

1. csaxton 4/10/2006 POD
Comment: Decreed rights 67-146 and 67-148 are applicable to part of the ground claimed under this right. However, there were no claims filed on 67-146 and 67-148 specifically. This claim appears to claim 67-146 and 67-148 along with additional ground and diversion rate as the watermaster delivery records show delivery of 67-146 and 67-148 to the claimant. In addition the delivery records show delivery from the TJ Glenn and the Osborn-Groom ditch. The claimant only claimed the POD from the Osborn-Groom ditch, but the remarks on the claim reference that there may be diversion from the T.J. Glenn ditch. Recommend the POD from each ditch for this right.

2. csaxton 4/10/2006 Evidence of Priority
Comment: Along with decreed rights 67-146 and 67-148, the claimant is delivered storage water from Lost Valley Reservoir. Since Lost Valley Reservoir water is decreed water, we can recommend one day after the decree for the flood water without additional evidence of priority.

3. csaxton 4/10/2006 Diversion Rate
Comment: Notes from Bosco Bosler confirm that both the TJ Glenn Ditch and the Osborn Groom ditch have the capacity to divert the diversion recommended under this right.

4. csaxton 4/10/2006 Season of use
Comment: Season of used claimed as 4/15 to 7/15 which appears to be only for the flood water season of use. However, since the water master records show delivery of decreed rights 67-146 and 67-148, it would seem that water could be used for the standard irrigation season if they chose to do so. Recommend the full irrigation season of use under this right and let the availability of water and priority date determine season of use.

NOTES.

Duty of Water in District.

The Mann Creek Decree fixes the duty at .7 of an inch per acre, the Crane Creek Decree at 1 inch per acre, while the Weiser River Decree fixes the duty at ⅝ of an inch per acre for flood water, which amount is to be reduced as the flow of water decreases until the duty reaches ⅝ of an inch per acre, at which point priority begins.

Decrees on Record.

All water decrees for District 41 are recorded at the Washington or Adams County Recorders' offices and at the office of the State Commissioner of Reclamation at Boise, Idaho.

Extracts from the Weiser River Decree:

Court costs in the suit, including Referee, Reporters, transcript, hall rent, etc., are $5784.08, which make the cost per acre $.21.

Water Allotted to be Appurtenant to and for use upon the Lands Designated.

Headgates and measuring weirs to be constructed and maintained and to be so placed as not to unnecessarily impede the flow of water in the streams.
Water is allotted on basis of ⅝ of an inch per acre for lands irrigated and must not be diverted except for beneficial use, and the Water Master is ordered to shut off all ditches where the water is not put to a beneficial use or where the parties diverting the water permit wastage.
The Water Master shall rotate the water in the ditches whenever he believes the duty and efficiency may be materially increased thereby.

Any questions regarding the water rights of the District should be referred to A. Flournoy Galloway, Water Master, or to W. G. Swensden, Commissioner of Reclamation, at Boise, Idaho.
