STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

DECEDED N+L
67-00353

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that James H. Camp
(name of claimant)

of Box 303, Council, Idaho 83612, claims a right to the diversion and beneficial use of
(mailing address)
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Mill Creek
, tributary to, Weiser River
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
- | | | |
|--------------------|---|--|
| Amount <u>0.48</u> | Use <u>stock water & irrigating</u> | Period of Use: From <u>May 1</u> To <u>July 20</u> |
| Amount _____ | Use _____ | Period of Use: From _____ To _____ |
| Amount _____ | Use _____ | Period of Use: From _____ To _____ |
| (cfs, gpm or a/f) | (dom., irri., stock, etc.) | (both dates inclusive) |
- (3) Total quantity of water claimed: 0.48 / 0.32 cfs cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.
- (4) Priority claimed: (the date water was first applied to beneficial use) 5-1-94

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) (A) Point of diversion: (give location of point where water is diverted from its source)

Dear Craig

Thanks for the work you do concerning water rights, it is nice to work with someone who cares about their work.

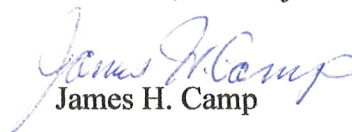

This is in response to a phone conversation this morning about the portion of land to which the shares of Mill Creek water I use are adjudicated. You ask about the use of flood water, I looked in the Adams County Real Property records and found the following:

In the year 1921 on page 141 the 16 acres I own was part of a 35 acre plot owned by Phillip Schaff. It is located in the NE1/4, SD1/4 of Sec. 35, T17N, R1E. The plot I own is where the home was built in 1912 and the records list 31 acres irrigated and 4 acres waste.

The 1931 records list the same owner, Phillip Schaff, with the same acreage's of irrigated and waste.

The 1942 records list the same owner with 18 acres irrigated, 8 dry and 4 waste.

Having lived here, in Council Valley, all my life I know from relatives that there were orchards here during the 30's so all the water available, both adjudicated and flood water's were probably used for irrigation.

Subject: Phone Call

I called Jim Camp to tell him that I had made a recommendation on rights 67-253C and 67-4132. But that the limitation on the recommendation would have to be 12.8 acres as I had no additional evidence of priority above the decreed amount of water.

He is going to write me an affidavit that dates back as far as he can remember which is in the 40's I think. If I receive that information, I will adjust the recommendation of the Stat claim to the priority date supported and the additional acreage.
