Comments:

1. csaxton 5/10/2006 Spoke with Claimant

Comment: I spoke with the claimant but I did not make notes on it. I know we discussed priority and that it was extremely hard for them to find.

2. csaxton 5/10/2006 Priority

Comment: The statutory claim was filed on July 17, 1975. This date is within 5 years of the mandatory permit statute. I feel it is safe to assume that they were using the water to the extent claimed in 1975 and my guidance in the past has been that in a situation like this, not unlike a permit, a person would have 5 years to develop the right. 5 years would put us before the mandatory permit statute. Consider this a valid b-use right and recommend priority of one day before the mandatory permit statute.

CONVERSATIONAL MEMORANDUM

Date: September 13, 2005

To: File 67-4135A, 67-10515, 67-10795

From: Craig L. Saxton

Subject: Evidence of priority

Received a call from Craig Jensen calling on behalf of his daughter Staci Morris. Staci received the evidence of priority letter to:

Billy D Michael
397 Riverdock Rd
Weiser Id 83672

Craig said that the property at this address is not irrigated and is the wrong address. He was calling to let us know that we might want to track down the real mailing address of Billy D Michael.

So I checked the proof reports and Richard Michael is also an owner listed on them with a different address of:

RICHARD A MICHAEL
1549 SCHELOSKE RD
WEISER, ID 83672

Comparing this with the tax lot data, this is what makes sense. So I think we sent one set of letters to the right address and one to the wrong one.

We will have to find out what is going on with Billy D Michael and if he has interest in these water rights any more. And if he does, then what is his new mailing address.

Subject: RE: Clyde Keithly
Date sent: Mon, 11 Apr 2005 13:33:08 -0600

Roger,

Ok, I found the file for Clyde Keithly. I spelled his name wrong the first time. Anyway, it is 67-07547. This is a license with a priority of 1982 and the licensing Field Exam was done in 1989. I scanned through the file and since it is a fairly recent license, the notes are clear and I don't see a real need to do anything with it. I will probably recommend it as licensed. If you are out there and want to GPS the POD that is fine, but you really don't need to. I have a good map of it in the file. I guess if something has changed since 1989, then we should know about it, but I couldn't recognize those changes anyway without a formal transfer. I would just tell Richard that at this point we don't have any questions on that water right and if something pops up, we will get a hold of him. I will let you use your judgment on this one, but I wouldn't spend a lot of time on it.

If this comes up, there is another filing under Clydes name, 67-10701, but it is for a spring and has the status of "Rejected". Notes on the claim say "Insufficient Fees" which to me means they didn't pay for it. Unless they want to pursue it, then we won't be looking at this one. If they do, have them talk to me and we will figure out what to do.

Thanks for looking into it though. Those are the sort of things we need to know about and can save us a lot of time in the future.

Thanks again,

Craig

We are returning the Notice of Change of Ownership to you to **COMPLETE OR RESEARCH ONLY THE FOLLOWING ITEM(S) SHOWING A CHECKMARK IN THE BLANK FOR THAT ITEM(S).**

There is no existing water right in our records either under the former owner's name or for the legal description given. If, after contacting the former owner, you find more information concerning a water right, please contact us.

Legal description of property. Please complete showing the legal description by 1/41/4 (40-acre tract), section, township and range for the property changing ownership. If you only have a subdivision lot & block legal description, please send us a copy of your subdivision plat map.

It appears you receive your water from an irrigation district, ditch company, municipality or community water company. If this is the case, then the water right remains in the name of this entity and you should contact them concerning the ownership change.

Name and address of former owner (seller). This will clarify the original owner of the water right.

Name, address and phone number of new owner (purchaser).

✓ This change in ownership appears to result in a splitting of the water right. A split of the water right occurs when the ownership change affects only a portion of the original right. In order to accurately split this right we must know what portion of the right was sold. The amount of water in CFS, the place of use by 1/4 1/4 with the number of acres in each 1/41/4 (if applicable) and the point of diversion by 1/41/4, Section, Township and Range is needed.
