CVS *qu*

This right is all or part of a water right first decreed in In the Matter of the General Determination of the Rights to the Use of the Surface Waters of Twin Lakes, Including Tributaries and Outlets, Case No. 32572 (1st Jud. Dist. Ct. April 20, 1989). When seepage and evaporation losses from Twin Lakes exceed the total natural tributary inflow to Twin Lakes, no water will be released from the lakes to satisfy this water right and other downstream water rights, with the exception of Water Right No. 95-734. When this occurs, Water Right No. 95-734 and water rights that divert from Twin Lakes and from the tributaries to Twin Lakes may divert the natural flow, but not the stored waters, on the basis of water right priority.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
