When seepage and evaporation losses from Twin Lakes exceed the total natural tributary inflow to Twin Lakes, no water will be released from the lakes to satisfy this water right and other downstream water rights, with the exception of Water Right No. 95-734. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree.
