RE: PRBA Claim 87-10268

Dear Claimants:

The Department of Water Resources has received your Palouse River Basin Adjudication (PRBA) Claim. We are unable to process and recommend your adjudication claim at this time for the following reason.

Through the review of your claim, it was discovered that certain required elements such as period of use and diversion rate were not described in the claim. Rather than return your previously submitted claim form, we have prepared an Amended Notice of Claim for you utilizing all the information from your original claim. The portions you previously omitted that require your attention have been highlighted (Sections 6 & 7) as well as the signature section of the form. For reference when listing the instantaneous diversion rate for the purposes of water use claimed, 0.01 CFS is equivalent to approximately 4½ gallons per minute (GPM).

Please review the claim and complete the highlighted portions before signing and returning the completed form to our office at the address listed above. Feel free to contact me if you have any questions regarding this matter and I will be happy to help. I can be reached by phone during business hours at 208-762-2815 or by email at evan.roda@idwr.idaho.gov.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region

Enclosure: Amended Notice of Claim to a Water Right No. 87-10268
