Subcase Nos. 95-13135

In Re CSRBA

Twin Falls County Civil Case No. 49576

Report to the CSRBA District Court

Prepared by the Idaho Department of Water Resources
Gary Spackman, Director
Craig L. Saxton, Manager, Adjudication Section

September 24, 2020

DESCRIPTIVE SUMMARY

This is an Amended Director's Report submitted by the Director of the Idaho Department of Water Resources (IDWR).

DISCUSSION

On February 26, 2019, IDWR filed a Director's Report for June and Norman L Jahns' Water Right No. 95-13135 for domestic and stockwater purposes.

On September 10, 2020, Special Master Booth reviewed water right 95-13135 for issuance of partial decree. In his review, he found an error in the condition under the Quantity section. This right included a condition limiting daily diversion volume to 13,000 gallons per day, but that limit is shared with right 95-13136. The Amended Director's Report corrects the quantity condition to limit both 95-13135 and 95-13136 to 13,000 gallons per day.

The Director submits for filing with the Court Amended Director's Reports for the aforementioned subcases (see attached recommendations).

A handwritten signature in blue ink, reading "Craig L. Saxton", is positioned above a horizontal line.
