IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 67-4181

NAME AND ADDRESS: LYNN A PEARSON
PO BOX J
COUNCIL ID 83612

SOURCE: WASTE WATER TRIBUTARY: CAMP CREEK

QUANTITY: 0.090 CFS

The quantity of water under this right for domestic use shall not exceed
13,000 gallons per day.

PRIORITY DATE: 03/15/1969

POINT OF DIVERSION:

T16N R01W S2 NESW Within ADAMS County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
AESTHETIC	03/15 11/15	0.090 CFS
DOMESTIC	03/15 11/15	0.020 CFS
Domestic use is for 1 home.		
Aesthetic use is for 1 duck pond.		

PLACE OF USE: DOMESTIC Within ADAMS County

T16N R01W S02 NESW

AESTHETIC Within ADAMS County

T16N R01W S02 NESW

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for
the definition of the rights or for the efficient administration of the water
rights as may be ultimately determined by the Court at a point in time no
later than the entry of a final unified decree. Section 42-1412(6), Idaho
Code.

The quantity of water decreed for this water right for domestic use is not
a determination of historical beneficial use.

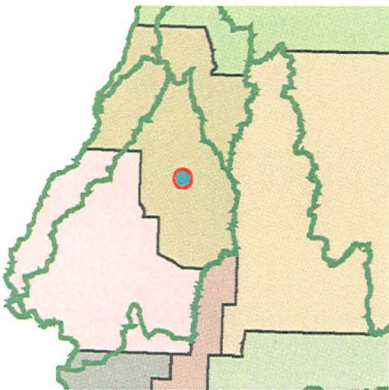

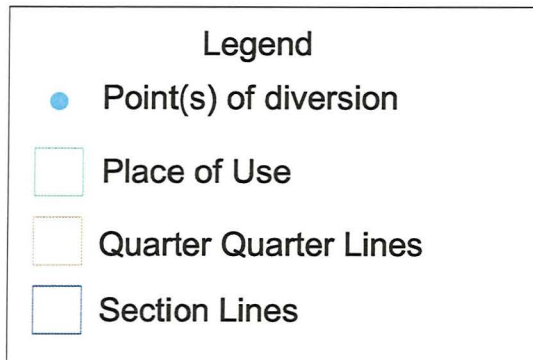

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

PROPERTY IS LOT 1, BLOCK 5, COUNCIL ORCHARDS.

To Whom it may concern:

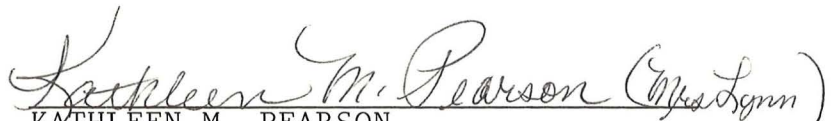

Re: Water Right # 67 - 04181

We purchased this property located at 2333 Orchard Road, Council, Idaho in March 1969. At the time of purchase there was an established pond above the house with cat tails and water plants flourishing as well as willow trees at places around the pond. There was also an irrigation ditch from it out into the field and down the field. The water entered the pond at the northeast corner of the land, using waste water in the ditches from both sides of the road. There was and is a large culvert under the road at that point bringing water from the north side ditch. Water flows from the pond back into the ditch at the northwest corner of the pond.

We have and do use the pond water for:

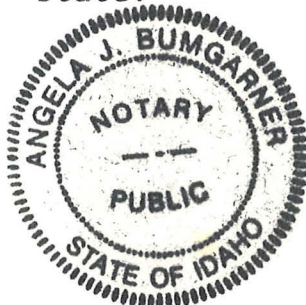

Aesthetic Use: We have always had domestic white geese on our pond. At one point we used them for food, but now they are there because we like them. We have had catfish and crappie in the pond as well as frogs and aquatic life on which kingfishers and blue heron feed. We have wild mallard ducks who nest and raise their young there each year. We have red wing blackbirds which have woven nests in the stalks of the cat tails upon their spring arrival. One year we had two large swan feeding in the pond for a few days. We have a paddle boat for neighboring children to use, with permission, to look at frogs and enjoy slowly looking around the pond. We see cars slow down to look at something in the pond area. It is a source of peace and delight.

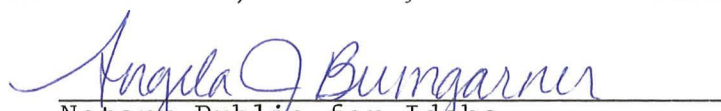

Domestic use: Though we no longer use the irrigation ditches in the pasture, over the years we have piped water to a ½ hp pump which we use to water our garden and yard and some of the other area of the land. We use two hoses from this pump during the watering season. The pond has always been a source of water for the animals in our pasture - mostly cows over the years and sometimes horses.

RE: EVIDENCE OF PRIORITY AND AESTHETIC USE FOR SNAKE RIVER BASIN
ADJUDICATION (SRBA) CLAIM 67-4181

Dear Claimant:

The Idaho Department of Water Resources has begun its water right review in Basin 67. The Notice of Claim identified with the number shown above in the "address" label and at the "end" of this letter has been filed in the SRBA. **As the claimant(s), you are responsible for submitting the necessary proof to support your claim.**

For your claim, we need two pieces of information at present. First, we need evidence of your priority date. This is explained in the following paragraphs. Second, you are claiming "Aesthetics" as part of your water use. We need to know what the "Aesthetics" use is for (i.e., pond).

The Notice indicates water usage is based on "Beneficial Use." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority."** The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date."**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by **September 1, 2005** **referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 287-4907.

Respectfully submitted,

Monica P. Van Bussum

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that Lynn A. Pearson
(name of claimant)
of Box J, Council, ID 83612, claims a right to the diversion and beneficial use of
(mailing address)
the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) waste water from roadside ditch, tributary to, _____
- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
- | | | | | | | | |
|--------|-------------------|-----|----------------------------|---------------------|--------------|----|------------------------|
| Amount | <u>0.09</u> | Use | <u>irrigation</u> | Period of Use: From | <u>Mar 1</u> | To | <u>Nov 1</u> |
| Amount | _____ | Use | _____ | Period of Use: From | _____ | To | _____ |
| Amount | _____ | Use | _____ | Period of Use: From | _____ | To | _____ |
| | (cfs, gpm or a/f) | | (dom., irri., stock, etc.) | | | | (both dates inclusive) |
- (3) Total quantity of water claimed: 0.09 cubic feet per second, or 18.4 acre feet per annum, and/or _____ gallons per minute.
- (4) Priority claimed: (the date water was first applied to beneficial use) 1966

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)
NE ¼ SW ¼, Sec. 2 Twp. 16N Rge. 1W B. M. County of Adams
 Additional points of diversion: _____

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Small diversion in ditch & pipe under Orchard Road to bring water to south side & hence into pond.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 4.6

- B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: Water flows from ditch on north side Orchard Road thru pipe to south side and into pond from which irrigation water is used by one ditch for field, also pumped under pressure for sprinklers garden & lawn. Excess returns by overflow back to road ditch.

The image shows a full page of graph paper. It features a grid of squares defined by solid black lines. Within each square, there are dashed horizontal and vertical lines that intersect at the center, creating a smaller square in the middle of each larger one. This pattern repeats across the entire page, providing a template for technical drawing or mathematics.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiants knowledge.
