In response to your request about
claim 67-04269.

I Lynn Anderson bought
this farm in 1945. It had one
pump on it but it wasn't enough
to water the land so I & my
neighbor Ed Hansen dug another
to take care of the water problem.

We hand dug this well. What we
would do is dig a round hole down
to water level and then ~~edge~~ edge
2x6 to fit the hole and a iron
band at top and bottom to make
a form. Then pour concrete down
to water. We would then sharpen
the 2x6's on bottom and drive them
down as we would windless the
dirt & gravel as we went down.

We would put a pump to keep the
water down.

We have used these pumps since
then and was able to raise some
good crops. If you need more
Information I will send more.

RE: Snake River Basin Adjudication (SRBA) claim 67-04269

Dear Mr. Anderson,

I received your Notice of Change of Water right ownership you submitted along with the death certificate. Thank you for your prompt response with your submittal. I will update the database as requested. However, the information on the affidavit you submitted did not address the priority date of the claimed water usage. You briefly mentioned that you bought the property from Carl Braden (?), but did not address anything about the dates water use commenced. I apologize for not explaining what IDWR needs for evidence of priority.

You claimed a priority date of January 1, 1945. What that is saying on the claim is that in 1945 someone commenced irrigating the 22 acres claimed from the two wells claimed. What the department needs to recommend the priority date, is some sort of evidence showing that the well water was put to beneficial use on that date.

The majority of evidence the department receives is in the form of an affidavit from someone that has first hand knowledge of the irrigation history. Something along the lines of a statement saying, "... I remember that this was irrigated from both wells in the summer of 1950, as I helped dig the well ..." This is only an example. **Any history that could be provided will be helpful.**

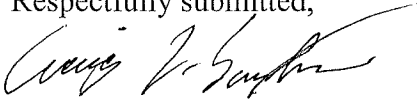

Other examples are old dated aerial photos, receipts from power pump records, well logs, etc.

I am enclosing a pamphlet that describes evidence of priority and the things that can and cannot be used as evidence. Please look over it and you can go ahead and send the evidence of priority information directly to me.

Again, I apologize for the inconvenience and that I did not address this issue with you properly when we met on 3-25-05. However, without this information, I cannot make a favorable recommendation on this claim to the SRBA court.

Please feel free to contact me with any questions.

Respectfully submitted,
