Remarks:Comments:

1. csaxton 3/21/2006 POU

Comment: SESE of Section 4 is claimed under this right but is recommended under the waste water claim of 67-4273. In order to recommend SESE of Section 4 with live water, then waste water could not be recommended just based on how the system would have to work. If live Little Weiser water made it to SESE S.4, then it is not waste. It is either an enlargement, or a new appropriation of Little Weiser water. Thus, if it is waste water, then we can not say that live Little Weiser water made it to that POU.

2. csaxton 3/21/2006 Priority

Comment: Affidavit from person that has been neighbor to the property since 1949.

3. csaxton 3/21/2006 Diversion Rate

Comment: Per data provided by Roger Meyer, the POD recommended under this right can divert 1.82 cfs. The total diversion rate recommended from this POD is 1.02 cfs. No measurement needed.

4. csaxton 3/21/2006 Diversion Rate (2)

Comment: Recommend claimed diversion rate of 0.60 cfs. However, to bring this right and decreed rights 67-457 and 67-458B to one full inch per acre, IDWR could recommend up to 1 cfs under this right. According to Roger Meyers notes, the reason a greater diversion rate was not claimed was because the claimant uses C Ben Ross Reservoir storage water to supplement the live flow.

5. csaxton 3/21/2006 Copied From Claim (1)

Comment: Ownership changed by DH 7/8/2002

6. csaxton 3/21/2006 Copied From Claim (2)

This attachment is for Water Right Numbers 457, 458B and 4276. These water rights lay over top of each other along with 37 inches of water rights from C. Ben Ross Reservoir that is privately owned over and above their adjudicated rights.

W/R # 457 has 0.30 CFS = 15"

458B has 0.12 CFS = 6"

4276 has 0.60 CFS = 30"

Total of 51" which = 81.6 Acres

C. Ben Ross Reservoir = 37" 37 Acres

Total of 88" 118.6 Acres

The POD for this water is the South Ogle Ditch #A0016781 which is on map 67-457 section 4 and 9 (14N01W9NESE). This also gets re-useable water from above Munday Gulch Rd that comes out of the Anderson ditch across Mike Johnson, Ron Dunham and Peggy Shelton's properties. This water dumps into the ditches from the South Ogle Ditch which runs down and crosses the Ogle Road that irrigates the 20 or so acres NW of Ogle Rd. This in turn dumps into the Little Weiser River and the Underwood Ditch that is used to irrigate the 7 acres on water Right # 67-4273

Dear Thel and Robin:

Enclosed please find copies of all the claims filed and found within your property boundaries in the name of Delbert and/or Tom Ogle. The claims have yet to be decreed in the Snake River Basin Adjudication, which means we still have to do a name change so that the decrees are issued in your names. Please complete nos. 4, 5, and 7 on the enclosed Change of Ownership form and return to my attention. There is no charge.

Let me know if you have any questions.

Sincerely,

Lori Graves

Dear Lori:

In a telephone conversation several months ago, you told me that if I sent in the legal description of our land, you would clarify our water rights in Indian Valley and make sure that they are now in our names. I apologize for taking so long.

I am enclosing several papers. "Exhibit A" gives a brief legal description of the first 825 acres. A longer version is attached, but I think that the details are just trying to define the course of the Little Weiser River. We have no land east of the river. The descriptions of Parcel 1 and Parcel 2 on the Trustee Deed defines the additional 300 acres.

I am also enclosing a copy of the paper given us by the real estate office. I brought it with me to your office when we first purchased the land. It shows Delbert Ogle on this sheet; water rights might also be listed under Tom Ogle's name, as it was originally his ranch.

I appreciate the work that you will be doing, and look forward to hearing from you.

Sincerely,

Thel Pearson
