Memo

To: File

From: Dan Narsavage

Regarding: Evidence of Priority for 67-4303 and 67-4278A

Date: June 15, 2006

The attached document is an excerpt of a 1915 tax assessment copied from a copy submitted by Huey for evidence of priority (EOP) for 67-4278A. It contains descriptions of the land claimed in 67-4303 as well, and will be good to provide evidence of priority for the following acreages, all in 14N 1W Sec 10:

PLSS QQ	In assessment	Huey EOP	Remaining for Buchanan	67-4303 claim	Unsupported
NESW	34	19	15	20	5
NWSE	35	20	15	20	5
NESE	8		8	30	0
SESE	16		16	24	8
SWSE	36		36	36	0

Buchanan's claim 67-4303 is for 130 acres, all within the quarter quarters mentioned above. Judging by aerial photography, this number appears to be accurate.

The above table summarizes the tax assessment for the claimed ground. The 30 acres claimed in the NESE (8 acres recorded in tax assessment) need no EOP since they are covered completely by 67-424, -449, & -452 at 5/8" per acre. This brings the total acreage with sufficient EOP to 112, which leaves 18 acres unsupported (see table above for distribution).

A map completed sometime in the late 1910s or early 1920s (lower limit based on the map author's first certification as a civil engineer in 1918 and the upper limit based on landscape changes such as the reservoir – constructed in 1931 and missing on the map) shows 20 acres of land in the SESE being irrigated rather than 16. Now only 14 acres in 67-4303 are without EOP for a 1921 priority date (after *Muir v Allison* decree), as follows:

PLSS QQ	Unsupported
NESW	5
NWSE	5
SESE	4
