EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

MEMORANDUM

TO: ADJUDICATION FILE 67-4304

FROM: DANIEL A. NELSON

DATE: 11/14/06

SUBJECT: CLAIM REVIEW

This claim was for domestic and irrigation use for a 1.6 acre parcel. The claim was filed for 2 acres, but the county records available to the department show that the claimant only owns 1.6 acres. Taking this into account, there is no possible way that the full 1.6 acres were irrigated when you take into consideration that the home, barns, and driveway take land out of irrigation. At most there would only be slightly over an acre of irrigation, if everything were irrigated. When looking at the 1987 aerial photography, it appears as only a small portion of the ground is actually irrigated around the home.

The affidavit supplied by the owner states that the ground was originally irrigated by surface water, and was not irrigated from ground water until after a new well was drilled in 1987. Taking all of this information into account I can't recommend the irrigation portion of this claim. The affidavit does say that the domestic use was established in 1936, and I will advance the priority date of the domestic use to that date. The domestic use will be the standard domestic use described in 42-111, for in-house use and up to ½ acres of irrigation not to exceed 13,000 gallons per day.

Therefore, I will recommend this claim for 0.04 cfs for domestic use, and include the standard N codes for domestic use.

AFFIDAVIT

Georgianna Parker

being first duly sworn,

deposes and says: I have filed on my well to prevent a future situation of new
building sights needing wells, from tapping into the vein that my well is supplied by. I have
lived here most of my life. My Father hand dug with shovel and pick, a 35 foot well in 1936 (to
the best of my knowledge). At that time all the land was irrigated with ditch water from the Robinson
Seivie ditch. In 1963 he had a new house built for us on the same spot the old house existed at.
We used a 35' well until 1977, at that time Ray Uhlencot drilled a 100' well for us (see enclosed
copies). We have used irrigation water from one owner of the property surrounding us in the 70's,
and the well has furnished domestic, garden, pasture, stock watering, preventing fires and all
other needs on this one and 1/2 acre.

CONVERSATIONAL MEMORANDUM

TO: File

FROM: Monica Van Bussum

DATE: 14 Sept 2005

RE: Conversation with Georgianna Parker

Georgianna Parker called earlier this afternoon and spoke with Danni Smith. She told Danni she thought her claim, 67-4304, should have a basis as decreed because it was originally in her family and she still lives on the property. Danni asked me to take a look into the situation and call Ms. Parker back.

There does appear to be some discrepancy between the POU for decree and the claims in the name of Scism and Cole (67-14533 and 67-14534, based on 67-55), but this does not concern the Parker claim, so is not addressed here. The Scism/Cole decreed claims claim the Weiser River as the source and the Parker claim (67-4304) claims ground water as the source. Craig Saxton told me in conversation that we can not do an accomplished change in source between a surface water source and a ground water source because essentially, the person bettered their water right since ground water is always there and surface water is not. Craig and I decided to explain this to Ms. Parker and work on priority for her existing well.

I explained the surface water/ground water accomplished change to Ms. Parker and she seemed fine with that. She gave me some history of the place. The original well was hand dug in the 1930s, about the time her older sister was a baby. It was replaced in 1977 because the original well was insufficient to meet their needs. The first well has since been filled in and they use the 1977 well to irrigate the property, water the lawn, water a few stock and for domestic use. Before the 1977 well was put in, they used water in the Robertson Sevey ditch to irrigate the property, but since the 1977 well was dug, they have used well water.

It looks like all Ms. Parker needs is to give us evidence of priority for the well. She remembers the original well and was on the property when the new well was put in. She was born in 1938 and is 67 years old. I asked Ms. Parker to write an affidavit explaining the original well and the new well, how they were used, etc. I extended the 16 Sept deadline so she wouldn't have to worry about getting the affidavit done in the next two days.
