Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.

RE: Evidence of Priority - Snake River Basin Adjudication
Claim #A36-04006, A36-04178, & A36-04256

Dear Claimant(s):

Our records indicate that your claim(s) listed above, is based upon either a "Statutory Claim" or "Beneficial Use" of the water. For water rights of this type, the claimed "Priority Date" must be substantiated with supporting evidence. We previously requested this supporting evidence be submitted by November 1, 1990, and to date we have not received the requested documentation.

Before the Department can make a recommendation to the Court to decree the claim(s), some evidence of the priority date must be submitted. Again we are enclosing a brochure outlining the types of evidence you may submit, and a printout of your claim(s) for reference. We request that you submit your evidence of priority as soon as possible. If we do not receive the requested documentation, your claim(s) will be recommended for disallowal due to lack of evidence supporting any priority date.

Please submit the required evidence supporting the priority date(s) by April 23, 1991. Please reference the claim number on your correspondence. If you have questions or need other assistance please contact this office.

Sincerely,

And, 10 of the 40 acres recommended to be irrigated in:

ISSUE: the three rights are recommended within A permissible P/U. therefore P/U will be common and addressed as a unit. Claim 36-4006 questions the Priority date also.

RESPONSE: - RE: Priority date for 36-4006: Recommended priority date is based upon the ortho photo which shows the expansion & a field span conducted by the Dept on 7-14-77. Lacking additional info, the 7-14-77 date is recommended.

RESPONSE - RE: P/U discrepancy: claimant requests recognition of an unrecorded transfer for the licensed acres in the West 1/2 of the E 1/2 of Sec 32 to the SE 1/4 of Sec 2.

There have been several mistakes made identifying the P/U covered by these three rights. (Dept errors & the then current owners) This is a correction misalignment of Sections between R23E & 24E & T-6S & 7S. Gov Lots in Sec 2 were missed during licensing also. I feel that recognizing the unrecorded transfer

would better represent how the system was developed and actually used. A transfer (2705) was filed to move the water use from the SE $\frac{1}{4}$ of Sec 2 to the NW $\frac{1}{4}$ of Sec 2. Based upon related documents it appears that the transfer was partly filed because of the confusion relating to the corrections in the Range & Town Ship. I accept the request for change in the P/U from Sec 32 to Sec 2. The SE $\frac{1}{4}$ of Sec 2 was completely farmed in 1987. A center pivot has since been installed and the corners are currently not being irrigated. Five years of non use has not passed therefore All of the SE $\frac{1}{4}$ is being recommended.

VET SHACK

PICTURE # 4

This picture shows the P/D in the $SE\frac{1}{4}/SW\frac{1}{4}$ of Sec. 33. The picture is looking north northeast. The P/D located in the $NW\frac{1}{4}/NE\frac{1}{4}$ of Sec 33 is included within this picture and is located just above the far corner post surrounding this well. Because of the distance it is not readily visible.

System Analysis

The system is two wells irrigating acres in Sections 32 & 33, T 6S, R 23E, and Section 2, T 7S, R 23E. The irrigated acres are claimed through 3 overlapping claims.

Ownership and Use History.

Two permits (#36-2619 & #36-2620) were filed on 8-6-1965. 36-2619 listed one P/D in the SE/SW of Sec 33. This permit was amended on 10-16-70 to add a second P/D in the NW/NE of sec. 33. The original permit included the SE/SW of Sec 33 and the licensing field exam indicated that they were irrigated, along with 320 acres in Sec 2 that were not listed on the permit. 33-2619 was subsequently licensed for 160A in ^{SE 1/4} sec 32, 160A in ^{SW 1/4} Sec 33, and 320A (E 1/2) of Sec 2. The license was issued on 3-11-82, the owner protested and had the 160A in the SE 1/4 of Sec 2 transferred to the NW 1/4 of Sec 2. This was accepted on 6-11-82. (They stated that the SE 1/4 was to be dry.)

The property had gone into foreclosure prior to the proof due date and was acquired by Northwestern Mutual Life Ins. Co. They submitted a claim to a water right rather than proof of beneficial use which was accepted by the Dept (36-4006). The Proof of Beneficial Use was then submitted for the two rights (36-2619 & 36-2620) and the licensing field exam conducted on 7-14-77.

The transfer of the licensed acres (discussed above) was requested by J.R. Simplot (the current owner) to conform to what they felt that they were actually doing.

Because of the section alignments between T-6 S & T-7 S I feel that confusion may have allowed the SW 1/4 of Sec 33 to be excluded from licensing when in fact it was among the original acres irrigated.

A36-2619 Summary.

I accepted the claimed acres as the original P/U. but because the N 1/2 of the NE 1/4 & NW 1/4 is gov lots 1 through 4, and because the actual no of irrigated acres in section 2 was 480A (130 to be disallowed), the P/U had to be modified to shift the balance between the licensed 40 Acres in ea gov. lot and actual 25Acre Gov lots. The 15Acre balance was shifted into the N 1/4's of the South 1/2.

A36-2620 Summary.

I recommended that the P/D be modified to reflect both wells as they have been used together on the P/U. The P/U was recommended as claimed and the overlap with A36-4006 was not recognized. This is based upon the Proof of Beneficial use - claim filing misunderstanding.

A36-4006 P/D summary

During the field examination (6-24-91) no link between the P/D in Sec 11 and the P/U was found. The two P/D's in Sec 33 were found to exist & therefore I recommend them as claimed.

Overlapping acres were excluded as discussed above. My findings indicate that the original expansion occurred in Sec 2 prior to the 1977 licensing field exam for 36-2620. As these acres (Sec 2 acres) were recognized through licensing on 36-2619, and other evidence indicate that the SW $\frac{1}{4}$ of Sec 33 was irrigated prior to the field exam date of 7-14-77. e.g. (The P/D amendment for 36-2619 indicates, on the P/U sketch, ditches coming from both wells into the SW $\frac{1}{4}$ of Sec 33.

I therefore recommend the acres in Sec 2 through A36-2219 & the SW $\frac{1}{4}$ of Sec 33 through claim A36-4006. Additional acres claimed in the SE $\frac{1}{4}$ of Sec 2 are recommended for disallowal based upon the 6-12-82 transfer for 36-2619 which shifted the irrigated acres in the SE $\frac{1}{4}$ of Sec 2 to the NW $\frac{1}{4}$ of Sec 2. The transfer further stated that the SE $\frac{1}{4}$ of Sec 2 was to revert to dry land pasture. An additional factor for disallowal is that the recommended expansion of 160 Acres in the SW $\frac{1}{4}$ of Sec 33 is based upon a 0.0106 CFS/ACRE diversion rate. The additional found 130 Acres in the SE $\frac{1}{4}$ of Sec 2 would be based upon a diversion rate of 0.0096 CFS/Acre.

I recommend 160 Acres in the SW $\frac{1}{4}$ of Sec 33 with a 7-14-77 Priority Date (36-2620 field exam date) based upon the note to 5.b. Pg 7 of the adjudication 16B dated May 9, 1991.

The combined system capacity for Both P/Ds was determined to be 13.15 CFS per the 7-14-77 field exam for 36-2620.

36-2619 was licensed for 12.8 cfs.

36-2620 was licensed for 7.13 cfs

total div rate licensed = 19.93 CFS which is greater than the system capacity therefore the expansion occurred without an expansion in the div rate.

The system was changed to a sprinkler system prior to 1982, therefore, the calculated system diversion rate is within the $\frac{1}{2}$ in per acre Dept guidelines.

Calculations

	DEV RATE	ACRES	Remarks.
A36-2619	12.8	640	P/U changed to reflect current operations.
A36-2620	7.13	440.	P/D added, P/U accepted as claimed
A36-4006	<u>1.70</u>	<u>160</u>	P/U = new acres only. Exp acres in Sec 2
total	21.63	1240	dis allowed.

Rate per acre = $13.15 \text{ CFS} / 1240 = 0.0106 \text{ CFS/ACRE}$

AF req. for found acres = $1240 * 4 \text{ AF (DIV VOL)} = 4,960 \text{ AF}$

System Capacity = $13.15 * 246 \text{ DAYS} * 1.9835 = 6,416 \text{ AF}$
