Susan P. Hoffman being first duly sworn,
deposes and says: I moved on this place in 1944
when I was 12 years old. My father irrigated
this place for hay and we cut it & I helped
haul it and we hauled it with horses.
I have lived on this ranch since 1944 and
left 1949-1957 when we moved back here.
My father used this irrigation water during all this
time to irrigate this place. We continue to use
the water on this place from 1957 to the present
time of 2006.

Susan P. Hoffman

A0017648. Normally a 12" pipe is in place. The claimants were not irrigating yet and so had a smaller pipe in the ditch for stock.

Cursory measurement of ditch from A0017648. Ditch was 2.5 inches deep by 4 feet wide. Field examiner in lower picture is pointing to 4-foot mark. Mr. Hoffman states the ditch is normally this wide, but is usually 6-8 inches deeper during active irrigation.

Photo of area of second 67-4496 POD off of Goodrich Creek. Overflow of creek onto field is clearly evidence. POD was washed out on day of field exam and may not be replaced in the season. River is flowing from right to left. Picture taken facing south across Hoffman property.

Location of third and westernmost POD for 67-4496 off of Goodrich Creek. River is flowing from right to left. Picture taken facing south across Hoffman property. This POD was also washed out and may not be replaced this season.

1. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Remarks:Comments:

1. mvanbussum 6/15/2006 Quantity

Comment: This is a claim for floodwater. During field exam conducted 6-7-2006, Goodrich Creek was flooding onto fields of POU and had washed out multiple PODs. Based on field exam observations, there is ample water entering the property on Goodrich Creek to irrigate the property in full. If an objection is made to this water right, we may have to return and perform a more exact measurement on the ditches.

2. mvanbussum 6/21/2006 POD

Comment: Three of the four PODs were washed out during field exam 6-7-2006. GPS points were taken from the road and then moved to a more accurate location in the office.

3. mvanbussum 6/21/2006 POU

Comment: Recommended all the acreage the claimant said was being irrigated during the normal irrigation season, which is 28.5 acres as opposed to 62 acres as claimed. Imagery supports recommendation of 28.5 acres.

4. mvanbussum 6/21/2006 Season of Use

Comment: Recommended IDWR standard season of use.
