Comments:

1. csaxton 5/10/2006 Priority

Comment: EOP in "History of Lower Crane Creek Valley" by Irene Tallent. The history speaks of formation of irrigations districts which would most likely allow for additional water. In 1943, the Weiser Cove Irrigation District was formed. There were earlier irrigation entities, but Weiser Cove was formed after a WWI and the following depression.

2. csaxton 5/10/2006 POU

Comment: Field Exam conducted by Monica Van Bussum on 5-4-06 found significantly fewer acres are irrigated than was claimed.

Dear Mr. Maddox:

We are forwarding to you computer-generated copies of the Notices of Claim which you filed for your property in Washington County.

We have interpreted the data from your claims and have made some minor modifications which we feel more accurately describe your water rights. The items that were modified are highlighted. Please review the enclosed forms to assure that these modifications are in agreement with your water rights.

On Claim #A67-02019 at Item #8, the amount you have listed for consumptive use for your water right may be inaccurate. Using the chart in the instruction booklet (page 15), and based on your legal description, the Department suggests 3.5 acre feet per acre per annum. You are claiming 10 acres of irrigated land; therefore, your consumptive use would be 35.0 acre feet per annum. If this does not agree with your actual usage, please explain at Item #14, "Remarks".

If you agree that all the modifications are correct as indicated, you do not have to return the forms. However, if you feel we have misinterpreted any claim, and you make any changes to the Notice of Claim form, you must initial the changes you make, sign the form before a notary public and return the claim and a copy of this letter to:

Western Region Office
2735 Airport Way
Boise, Idaho 83705
(208) 334-2190

Please make these corrections before November 29, 1990. Do not hesitate to contact this office, or our Western Region Office, if you have any questions about the modifications.
