Conditions of Approval:

1. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Remarks:Comments:

1. mvanbussum 10/16/2006 Irrigation

Comment: Per field exam 6-8-2006, there does not appear to be active irrigation. No ditches, pipes, etc., and no apparent POD from creek.

2. mvanbussum 10/17/2006 Conversation with claimant

Comment: I spoke with Michael Woodman about the field exam conducted 6-8-2006. He lives primarily in Montana but irrigates when on the property in Council. He was not on the property at the time of the field exam. Some handlines were evidence in the pasture to the east. Recommending POU as determined during 6-8-2006. Claimant also confirmed POD as determined 6-8-2006. Claimant said he sometimes draws from the small pond directly behind the house, but that would irrigate property below the POU found during the field exam, so no POD will be recommended for the pond behind the house unless the claimant can provide further information.

3. mvanbussum 10/18/2006 SOU

Comment: Recommended IDWR standard season of use.

4. mvanbussum 10/18/2006 Quantity

Comment: Recommended IDWR standard 0.02 cfs, or 1 inch, per acre. $6.7 \text{ ac} * 0.02 \text{ cfs per acre} = 0.134 \text{ cfs}$. Recommended stockwater as claimed.

5. mvanbussum 10/18/2006 Copied from remarks

Comment: THIS CLAIM IS FOR WATER FROM ROCK CREEK. THE WATER IS ACTUALLY DIVERTED BELOW THE CONFLUENCE OF ROCK CREEK AND COW CREEK.

6. mvanbussum 10/18/2006 Source and POD

Comment: POD determined during field exam 6-8-2006 is from Rock Creek above its confluence with Cow Creek.

7. mvanbussum 10/18/2006 POU

Comment: The 0.6 ac in NWSE in the recommended POU was not claimed in the original claim, but is a natural extension of the pasture in NESW. It is assumed the claimant meant to claim the entire pasture.

8. mvanbussum 12/9/2006 NOE process

Comment: Claimant responded to NOE with statement that he agreed with proposed recommendation as long as it does not reduce his original water right. This claim does reduce the amount claimed originally. Claimant did not provide further evidence of beneficial use. Without additional evidence for additional irrigation, no changes to recommendation.

Recommended stockwater as claimed.
5. mvanbussum 10/18/2006 Copied from remarks
Comment: THIS CLAIM IS FOR WATER FROM ROCK CREEK. THE WATER IS ACTUALLY DIVERTED BELOW THE CONFLUENCE OF ROCK CREEK AND COW CREEK.
6. mvanbussum 10/18/2006 Source and POD
Comment: POD determined during field exam 6-8-2006 is from Rock Creek above its confluence with Cow Creek.
7. mvanbussum 10/18/2006 POU
Comment: The 0.6 ac in NWSE in the recommended POU was not claimed in the original claim, but is a natural extension of the pasture in NESW. It is assumed the claimant meant to claim the entire pasture.

RE: PLACE OF USE (POU) FOR SNAKE RIVER BASIN ADJUDICATION (SRBA) CLAIM 67-4519

Dear Claimants:

I received the affidavit from Cecil Bilbao for evidence of priority for the above-mentioned claim. As you know, part of the Adjudication process involves verification of all the elements of the claim. In my continuing review of your claim, I am having trouble verifying the place of use. I have enclosed a map of the general claim area and ask that you outline the acreage irrigated, as well as mark the point of diversion from Rock Creek.

Also, depending on the acreage irrigated, we may need to do a flow measurement for your diversion works. I will let you know if a field exam is needed later this spring.

Please contact me at (208) 287-4907 if you have any questions.

Respectfully submitted,

Monica VB

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Re: Evidence of Priority Date for Snake River Basin Adjudication (SRBA) claim 67-4519

Dear Claimant:

We recently received your Notice of Change in Water Right Ownership for 67-4519. In your correspondence, you indicated that you have used water on the property since you purchased it and your predecessor used water on the property, as well. While this is helpful information, it does not verify the priority date claimed in 67-4519. I have included some additional information in this note, as well as the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

Claim 67-4519 indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed. **Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.**

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit (form enclosed).

Please submit the required evidence supporting the priority date and the historic use by February 1, 2006, referencing all documents with the corresponding claim number. Send the documents in the enclosed envelope to assure it arrives at the correct location. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. You can contact the Basin 67 team via e-mail at B67questions@IDWR.idaho.gov. If you wish to call, our toll free number is 1-800-451-4129.

RE: Investigation of Snake River Basin Adjudication (SRBA) claim **67-04519**

Dear Claimant(s):

As you may be aware, the Idaho Department of Water Resources (IDWR) is currently in the process of reviewing Snake River Basin Adjudication (SRBA) claims in the Weiser River Basin (Basin 67). My initial investigation found several issues regarding claim 67-04519 that need to be addressed.

1) Initial investigation indicates that you are now owner of the property to which this claim is applicable. According to our records, the property was most recently owned by Donald E. Rich. The legal description is as follows:

T15N R02W S06 NE1/4 SW1/4

We recommend that if, in fact, you now own the property in question, and use the water for the purposes claimed, you file a "Change in Ownership" (enclosed) with this department in order that we may send all further correspondence to the appropriate owner(s).

If you do not own the property applicable to this water right claim, you may disregard the remainder of this letter.

2) If this claim is applicable to your property, then you will need to submit evidence of priority. This claim is based on a statutory claim, or beneficial use. A claim based on beneficial use is a claim to a water right that has been established through historical use but has never been verified by IDWR. Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. In order to make a recommendation on this claim, IDWR needs to verify the elements of the water right. The date of first use, known as the priority date, for 67-04519 has not been confirmed. **Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.**

Claim 67-04519 claims a priority date of 03-15-1923. Please submit evidence supporting that the water claimed was put to beneficial use to the extent claimed on, or as close to, that date that can be supported. Enclosed you will find a computer printout of your claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

A map of the general area stated in your claim is also enclosed. If you irrigate, please outline the location of lands irrigated based on your claim, as well as the location of any points of diversion, if possible. If you have a claim other than irrigation, please outline the location of your place of use (i.e. house) and note the location of wells or other points of diversion. Please submit the completed map along with your evidence of priority. This will assist me in making a more accurate recommendation of your claim(s).

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

3) Lastly, this investigation is a major effort, and IDWR has hired contractors to assist us with this task. In order to make a recommendation on claim 67-04519, a field exam may need to be conducted.

Please feel free to contact me at (208) 287-4907 if you have any questions.

Respectfully submitted,
